Futures in Mechanics of Structures and Materials Thiru Aravinthan, Warna (Karu) Karunasena, Hao Wang, 2008-11-20
Futures in Mechanics of Structures and Materials is a collection of peer reviewed papers presented at the 20th Australasian Conference on the Mechanics of Structures and Materials ACMSM20 University of Southern Queensland Toowoomba Queensland Australia 25 December 2008 by academics researchers and practicing engineers mainly from Australasia. Basic Tutorial LS-DYNA & LS-PrePost for Beginners Dr. Arief Nur Pratomo, 2023-09-23 This book emerged due to the lack of references in the community about basic things using finite element method software LS DYNA and LS PrePost. Whereas lots of engineering cases that can be solved using this software. The main highlight of this book is the cases that involve large deformations such as a crash box of vehicles or an impact of bullets. These analyses can be applied in unlimited topics such as transportation, aircraft, defense, and so on. For example, in defense application, this simulation can be used to design bullet protection plate and also evaluate the anti ballistic performance without doing experiments that are usually very expensive and time consuming. Therefore, with this simulation, we can carry out the design process more cheaply and faster. This book contains detailed procedures for using LS DYNA and LS PrePost for cases of low speed collisions such as crash box impact up to high speed impact of a bullet. Cases such as armor for combat vehicles to military standard buildings can use the method described in this book. Other cases such as the bullet tip design can also be evaluated. Thus, the method in this book can also be adopted for other broader analyses. **Best Practices for Crash Modeling and Simulation** Edwin L. Fasanella, 2002
Manual for LS-DYNA Soil Material Model 147 Brett A. Lewis, 2004 *Public Roads*, 2007 Finite Element Method Păcurar Răzvan, 2018-02-28 The book entitled Finite Element Method Simulation Numerical Analysis and Solution Techniques aims to present results of the applicative research performed using FEM in various engineering fields by researchers affiliated to well known universities. The book has a profound interdisciplinary character and is mainly addressed to researchers, PhD students, graduate and undergraduate students, teachers, engineers, as well as all other readers interested in the engineering applications of FEM. I am confident that readers will find information and challenging topics of high academic and scientific level which will encourage them to enhance their knowledge in this engineering domain having a continuous expansion. The applications presented in this book cover a broad spectrum of finite element applications starting from mechanical, electrical, or energy production and finishing with the successful simulation of severe meteorological phenomena. **Bird Strike** Reza Hedayati, Mojtaba Sadighi, 2015-09-06 Bird strikes are one of the most dangerous threats to civil and military flight safety. Between 1960 and 2014, they were responsible for the destruction of approximately 150 civil aircraft and the deaths of 271 people. Bird Strike presents a summary of the damage imposed on the aviation industries by their avian counterparts. This book first presents and analyzes the statistics obtained from bird strike databases and offers various methods for minimizing the overall probability of bird strike events. The next chapters explore how to analyze the

ability of aero engine critical structures to withstand bird strike events by implementing reliable experimental theoretical and numerical methods Finally the book investigates the impact of bird strikes on different components of aircrafts such as the metal fuselage composite fuselage engines wings and tail and proposes two new bird models with explanations of their use Provides up to date information for aviation staff and researchers working on aircraft safety Offers comprehensive investigations on all the statistical theoretical experimental and numerical aspects of bird strike Includes studies carried out on bird strike and provides the reader with the important findings of each paper
