The Renaissance Popes: Culture, Power, and the Making of the Borgia Myth Gerard Noel, 2016-04-28 Between the years of 1447 Nicholas V and 1572 Pius V Rome was transformed from a ruined Medieval city The Vatican became the official home of the church and the world's largest bureaucracy a spectacular new Basilica of St Peter's took 100 years to build and Michelangelo changed the course of art history with his Sistine Chapel

So vast and expensive was this cultural explosion that a new fundraising initiative was launched the sale of indulgences The Renaissance Popes were statesmen warriors patrons of the arts as well as churchmen These were earthly times and the reputations of popes like Alexander VI the infamous Borgia patriarch and Julius II Terrible II for murder poison sodomy and simony vary only in degree Meanwhile the sin of heresy which threatens the very core of the Catholic soul was tirelessly targeted by two other lasting innovations of the period the Inquisition and witch hunts Alexander VI father of the ruthless Cesare and Jezebel Lucrezia is seen to this day as the embodiment of this iniquity But Gerard Noel shows this is unjust and based on false confessions and historical myth What's more Alexander created the blueprint for reform the first of its kind that would eventually lead to the Counter Reformation In his survey of the colourful reigns of the seventeen Renaissance Popes and his examination of the great Borgia myth Noel brings to light the true legacy political artistic religious of an extraordinary time

Wives, Widows, Mistresses, and Nuns in Early Modern Italy Katherine A. McIver, 2016-12-05 Through a visually oriented investigation of historical invisibility in early modern Italy the essays in this volume recover those women wives widows mistresses the illegitimate who have been erased from history in modern literature rendered invisible or obscured by history or scholarship as well as those who were overshadowed by male relatives political accident or spatial location A multi-faceted invisibility of the individual and of the object is the thread that unites the chapters in this volume Though some women chose to be invisible for example the cloistered nun these essays show that in fact their voices are heard or seen through their commissions and their patronage of the arts which afforded them some visibility Invisibility is also examined in terms of commissions which are no longer extant or are inaccessible What is revealed throughout the essays is a new way of looking at works of art a new way to visualize the past by addressing representational invisibility the marginalized or absent subject or object and historical invisibility to discover who does the looking and how this shapes how something or someone is visible or invisible The result is a more nuanced understanding of the place of women and gender in early modern Italy
