Gurdjieff: The Key Concepts Sophia Wellbeloved, 2013-04-15 This unique book offers clear definitions of Gurdjieff's teaching terms placing him within the political geographic and cultural context of his time Entries look at diverse aspects of his Work including possible sources in religious Theosophical occult esoteric and literary traditions the integral relationships between different aspects of the teaching its internal contradictions and subversive aspects the derivation of Gurdjieff's cosmological laws and Enneagram the passive form of New Work teaching introduced by Jeanne de Salzmann **Fifty Key Thinkers in Psychology** Noel Sheehy, 2004 Table of contents **Fifty Major Political Thinkers** Ian Adams, R.W. Dyson, 2004-03-01 Fifty Major Political Thinkers introduces the lives and ideas of some of the most influential figures in Western political thought from ancient Greece to the present day The entries provide a fascinating introduction to the major figures and schools of thought that have shaped contemporary politics including Aristotle Simone de Beauvoir Michel Foucault Mohandas Gandhi Jurgen Habermas Machiavelli Karl Marx Thomas Paine Jean Jacques Rousseau Mary Wollstonecraft Fully cross referenced and including a glossary of theoretical terms this wide ranging and accessible book is essential reading for anyone with an interest in the evolution and history of contemporary political thought [Gurdjieff](#) Sophia Wellbeloved, 2003 This unique book offers clear definitions of Gurdjieff's teaching terms placing him within the political geographic and cultural context of his time Entries look at diverse aspects of his Work including possible sources in religious Theosophical occult esoteric and literary traditions the integral relationships between different aspects of the teaching its internal contradictions and subversive aspects the derivation of Gurdjieff's cosmological laws and Enneagram the passive form of New Work teaching introduced by Jeanne de Salzmann **Fifty Key Figures in Management** Morgen Witzel, 2003 A collection of biographies of fifty people who have helped make management what it is today *Gurdjieff* Joseph Azize, 2020 This is the first analysis of all of Gurdjieff's published internal exercises together with those taught by his students George and Helen Adie It includes a fresh biographical study of Gurdjieff with ground breaking observations on his relationships with P D Ouspensky and A R Orage especially why he wanted to collaborate with them and why that broke down It shows that Gurdjieff was fundamentally a mystic and that his contemplation like methods were probably drawn from Mt Athos and its hesychast tradition It shows the continuity in Gurdjieff's teaching but also development and change His original contribution to Western Esotericism lay in his use of tasks disciplines and contemplation like exercises to bring his pupils to a sense of their own presence which could to some extent be maintained in daily life in the social domain and not only in the secluded conditions typical of meditation It contends that he had initially intended not to use contemplation like exercises as he perceived dangers to be associated with these monastic methods and the religious tradition to be in tension with the secular guise in which he first couched his teaching As Gurdjieff adapted the teaching he had found in Eastern monasteries to Western urban and post religious culture he found it necessary to introduce contemplation His development

of the methods is demonstrated and the importance of the three exercises in the Third Series Life Is Real only then when I Am is shown together with their almost certain borrowing from the exercises of the Philokalia G I Gurdjieff P D Ouspensky A R Orage George Adie Mysticism Meditation Contemplation Fourth Way Hesychasm Western Esotericism **Gurdjieff's America** Paul Beekman Taylor,2004 Offers information and stories about Gurdjieff setting him within the cultural and social contexts of America between 1924 and 1935 **Making No Compromise** Holly A. Baggett,2023-10-15 Making No Compromise is the first book length account of the lives and editorial careers of Margaret Anderson and Jane Heap the women who founded the avant garde journal the Little Review in Chicago in 1914 Born in the nineteenth century Midwest Anderson and Heap grew up to be iconoclastic rebels living openly as lesbians and advocating causes from anarchy to feminism and free love Their lives and work shattered cultural social and sexual norms As their paths crisscrossed Chicago New York Paris and Europe two World Wars and a parade of the most celebrated artists of their time they transformed themselves and their journal into major forces for shifting perspectives on literature and art Imagism Dada surrealism and Machine Age aesthetics were among the radical trends the Little Review promoted and introduced to US audiences Anderson and Heap published the early work of the men of 1914 Ezra Pound James Joyce William Butler Yeats and T S Eliot and promoted women writers such as Djuna Barnes May Sinclair Dorothy Richardson Mina Loy Mary Butts and the inimitable Baroness Elsa von Freytag Loringhoven In the mid 1920s Anderson and Heap became adherents of George I Gurdjieff a Russian mystic and in 1929 ceased publication of the Little Review Holly A Baggett examines the roles of radical politics sexuality modernism and spirituality and suggests that Anderson and Heap s interest in esoteric questions was evident from the early days of the Little Review Making No Compromise tells the story of two women who played an important role in shaping modernism **American Book Publishing Record** ,2005 **The British National Bibliography** Arthur James Wells,2006 **Gurdjieff and Hypnosis** Mohammad Tamdgidi,2009-11-23 This book explores the life and ideas of the enigmatic twentieth century philosopher mystic and teacher of esoteric dances George Ivanovitch Gurdjieff performing a hermeneutic textual analysis of all his writings to illuminate the place of hypnosis in his teaching Foreword by J Walter Driscoll **Safeguarding Mindfulness in Schools and Higher Education** Leigh Burrows,2017-08-04 Although mindfulness can be located in a number of different traditions and disciplines it was originally an esoteric and powerful practice based on developing a capacity attainable only by certain people After previously publishing on the positive outcomes in this book the author identifies a range of adverse effects of mindfulness meditation for some individuals that from the point of view of mindfulness in schools and higher education represents uncharted territory The author demonstrates through research personal experience and case studies how mindfulness activities can be safe for all students in education settings including the most vulnerable This book assists teachers in school and higher education settings to make informed decisions about whether to include mindfulness in their teaching depending on their own capacity student

cohorts and activities to make sure it is safe for more vulnerable students This guidance is based on a combination of existing pedagogical and clinical knowledge about meeting the needs of vulnerable students clients and patients and the specialized expertise of trained mindfulness clinicians and teachers This book puts school and university teachers in the driver's seat as regards mindfulness teaching in education settings It argues that the only way forward for mindfulness in education is to adopt an individualized approach which builds on what effective teachers already do in their work with vulnerable students through extending their knowledge about mindfulness and its possible effects In this way teachers' existing skills are celebrated and extended and mindfulness pedagogy develops organically with teachers becoming a genuine and felt experience both for themselves and their students rather than an add-on intervention **William Lethaby, Symbolism**

and the Occult Amandeep Kaur Mann, 2022-03-23 This book delves into the life and work of architect William Richard Lethaby 1857-1931 and his relationship with the occult and alchemy in particular Using detailed analysis of Lethaby's drawings and architecture the research uncovers Lethaby's familiarity with occult concepts and ideology during the spiritual revolution of the nineteenth century Throughout this time countless individuals particularly members of the avant-garde rejected more traditional religious pathways and sought answers through experimental and mystical alternatives William Lethaby *Symbolism and the Occult* reveals how the architect was profoundly influenced by the Zeitgeist which was saturated with references to spiritualism mysticism and the occult and explores the impact of occultism on his contemporaries and the wider Arts and Crafts Movement This book is written for upper-level students researchers and academics interested in architectural history William Lethaby and nineteenth-century culture and society Children's Books in Print, 2007, 2006

Handbook of New Religions and Cultural Production, 2012-03-28 The cultural products of new religions and spiritualities are frequently ignored or dismissed within academia often stemming from a hesitation to acknowledge these movements as genuine This volume explores the impact of new religions upon cultural production exemplifying the theological and spiritual principles of particular movements and demonstrating their substantial impact on wider society Contributions explore the realms of music architecture food art books films video games and more This scholarship will be of interest to those who wish to explore the gamut of modern religious expression and those who wish to broaden their knowledge of the spiritual origins of human culture Forthcoming Books Rose Arny, 2004 *Cumulated Index to the Books*, 1999 *Guide to Reprints*, 2004

Rethinking Religion in the Theatre of Grotowski Catharine Christof, 2017-03-27 This book opens a new interdisciplinary frontier between religion and theatre studies to illuminate what has been seen as the religious or spiritual nature of Polish theatre director Jerzy Grotowski's work It corrects the lacunae in both theatre studies and religious studies by examining the interaction between the two fields in his artistic output The central argument of the text is that through an embodied and materialist approach to religion developed in the work of Michel Foucault and religious studies scholar Manuel Vasquez as well as a critical reading of the concepts of the New Age a new understanding of Grotowski and religion can be

developed It is possible to show how Grotowski's work articulated spiritual experience within the body achieving a removal of spirituality from ecclesial authorities and relocating spiritual experience within the body of the performer This is a unique analysis of one of the 20th Century's most famous theatrical figures As such it is a vital reference for academics in both Religion and Theatre Studies that have an interest in the spiritual aspects of Grotowski's work *Contemporary Spiritualities* Stefania Palmisano, Nicola Pannofino, 2020-11-01 Contemporary alternative spirituality as studied by sociologists is usually seen as a recent phenomenon dating from the 1960s and 1970s However when viewed from a longer term perspective this form of religious expression is actually seen to reintroduce concepts that recur throughout Western cultural history This book argues therefore that spirituality in the 21st Century actually shares many of the same characteristics as Classical Mediaeval Renaissance and Modern spiritualities It is neither entirely new nor is it clearly alternative to more established religions The book is divided into two parts The first sets out the context in which contemporary alternative spirituality has formed charting its development as an academic term and a social phenomenon The second part looks at how these two elements have developed in countries that are historically Catholic focussing on specific examples in contemporary Italy spiritualities based on the sacralisation of nature those concerned with health and wellbeing and those which are fascinated by mystery Catholic majority countries are particularly interesting in this instance as the Catholic Church has a unique cultural hegemony with which to compare alternative spiritual practices It concludes that spirituality if framed in a longer historical perspective is a way of acting and seeing the world which was built and continues to be built upon complex relations with various contradictory sources of authority such as religion magic thinking secularism rationalism various spheres of lay culture This is a bold take on the spirituality milieu and as such will be of great interest to scholars of Religious Studies working on the sociology of religion contemporary spirituality and the rise of the spiritual but not religious
