The Psychology of Leadership David M. Messick, Roderick M. Kramer, 2004-09-22 In this book some of the world s leading scholars come together to describe their thinking and research on the topic of the psychology of leadership Most of the chapters were originally presented as papers at a research conference held in 2001 at the Kellogg School of Management of Northwestern University The contributions span traditional social psychological areas as well as organizational theory examining leadership as a psychological process and as afforded by organizational constraints and opportunities The editors goal was not to focus the chapters on a single approach to the study and conceptualization of leadership but rather to display the diversity of issues that surround the topic Leadership scholars have identified a host of approaches to the study of leadership What are the personal characteristics of leaders What is the nature of the relation between leaders and followers Why do we perceive some people to be better leaders than others What are the circumstances that evoke leadership qualities in people Can leadership be taught And so on

The contributions to this book examine these important questions and fall into three categories: conceptions of leadership factors that influence the effectiveness of leadership and the consequences and effects of leadership on the leader. All in all, the chapters of this volume display part of a broad spectrum of novel and important approaches to the study of the psychology of leadership. We hope that they are equally useful to those who are or would be leaders and to those who study the topic. As recent events have served to remind us, it is too important a topic to be ignored by psychologists.

Elevating the Human Experience Amelia Dunlop, 2021-10-20. Wall Street Journal bestseller. Have you ever struggled to feel worthy at work? Do you know or lead people who do? When Amelia Dunlop first heard the phrase "elevating the human experience" in a leadership team meeting with her boss, she thought, "He is crazy if he thinks we will ever say those words out loud to each other, much less to a potential client. We've been conditioned to separate our personal and professional selves, but work is fundamental to our human experience. Love and worth have a place in work because our humanity and authentic identities make our work better. The acknowledgement of our intrinsic worth as human beings and the nurturing of our own or another's growth through love"

ultimately contribute to higher performance and organizational growth Now as the Chief Experience Officer at Deloitte Digital a leading Experience Consultancy Amelia Dunlop knows we must embrace elevating the human experience for the advancement and success of ourselves and our organizations This book integrates the findings of a quantitative study to better understand feelings of love and worth in the workplace and introduces three paths that allow individuals to create the professional experience they desire for themselves their teams and their clients The first path explores the path of the self an inward path where we learn to love ourselves when we show up for work and examines the obstacles that hinder us The second path centers around learning to love and recognize the worth of another in our lives adding to the worth we feel and providing a source of meaning to our lives The third path considers the community of work and learning to love and recognize the worth of those we meet every day at work especially for those who may be systematically marginalized unseen or unrepresented Drawing on her own personal journey to find love and worth at work in her twenty year career as a management consultant Amelia also weaves together insights from philosophers theologians and sociologists with the stories of people from diverse backgrounds gathered during her research Elevating the Human Experience Three Paths to Love and Worth at Work is for anyone who has felt the struggle to feel worthy at work as well as for those who have no idea what it may feel like to struggle every day just to feel loved and worthy but love people and lead people who do It s a practical approach to elevating the human experience that will lead to important conversations about values and purpose and ultimately meaningful change
