Dudu,2023-03-01 This book critically examines the role of governments in promoting parity during and in post pandemic education This comes from the realisation that the pandemic has deepened the crisis by depleting the meagre resources that African countries might have devoted to normative educational practices where those on the margins would have been pushed further behind while the privileged would have been further initiated into the cultural and capital flows of private schools and historically research intensive institutions of higher learning This has far reaching implications for the education of underprivileged citizens and education particularly modes and modalities of delivery has to be reimagined to subvert the challenges wrought by the pandemic This book

Flash Feedback [Grades 6-12] Matthew Johnson, 2020-02-11

Beat burnout with time-saving best practices for feedback. For ELA teachers, the danger of burnout is all too real. Inundated with seemingly insurmountable piles of papers to read, respond to, and grade, many teachers often find themselves struggling to balance differentiated, individualized feedback with the one resource they are already overextended on: time. Matthew Johnson offers classroom-tested solutions that not only alleviate the feedback burnout cycle but also lead to significant growth for students. These time-saving strategies built on best practices for feedback help to improve relationships, ignite motivation, and increase student ownership of learning. *Flash Feedback* also takes teachers to the next level of strategic feedback by sharing how to craft effective, efficient, and more memorable feedback. Strategies for scaffolding students through the meta-cognitive work necessary for real revision. A plan for how to create a culture of feedback including lessons for how to train students in meaningful peer response. Downloadable online tools for teacher and student use. Moving beyond the theory of working smarter, not harder, *Flash Feedback* works deeper by developing practices for teacher efficiency that also boost effectiveness by increasing students' self-efficacy, improving the clarity of our messages, and ultimately creating a classroom centered around meaningful feedback.

She shows how genocide literature illuminates the ethics of reading and helps teachers and students rethink how literature should be taught in this modern, globalized era and the purposes of education more broadly.
