Bowers, 1992-01-01 *Hidatsa Social and Ceremonial Organization* a study of an important horticultural Plains Indian tribe synthesizes the rich material Alfred W Bowers recorded in the early 1930s from the last generation of Hidatsas who lived in the historic village of Like a Fishhook This documentary record of their nineteenth century lifeways is now a classic in American ethnography The book is distinguished for its presentation of extensive personal and ritual narratives that allow

Hidatsa elders to articulate directly their conceptions of traditional culture It combines archeological and ethnographic approaches to reconstruct a Hidatsa culture history that is shaped by a concern for cultural detail stemming from the American ethnographic tradition of Franz Boas At the same time its concern for the understanding of social structure reflects the influence of the British structural functional approach of A R Radcliffe Brown The most comprehensive account ever published on the Hidatsas it is of enduring value and interest An Agrarian History of South Asia David E.

Ludden,1999-10-07 Originally published in 1999 this book offers a comprehensive historical framework for understanding the regional diversity of agrarian South Asia *The Polymath* Waqas Ahmed,2019-02-11 Every human is born with multifarious potential Why then do parents schools and employers insist that we restrict our many talents and interests that we specialise in just one We ve been sold a myth that to specialise is the only way to pursue truth identity or even a livelihood Yet specialisation is nothing but an outdated system that fosters ignorance exploitation and disillusionment and thwarts creativity opportunity and progress Following a series of exchanges with the world s greatest historians futurists philosophers and scientists Waqas Ahmed has weaved together a narrative of history and a vision for the future that seeks to disrupt this prevailing system of unwarranted hyper specialisation In *The Polymath* Waqas shows us that there is another way of thinking and being Through an approach that is both philosophical and practical he sets out a cognitive journey towards reclaiming your innate polymathic state Going further he proposes nothing less than a cultural revolution in our education and professional structures whereby everyone is encouraged to express themselves in multiple ways and fulfil their many sided potential Not only does this enhance individual fulfilment but in doing so facilitates a conscious and creative society that is both highly motivated and well equipped to address the complexity of 21st century challenges **Public**

Cherokee DNA Study did just that What they had in common is they were previously rejected by commercial firms genealogy groups government agencies and tribes Their mitochondrial DNA was not classified as Native American These are the anomalous Cherokee Share the journeys of discovery and self awareness of these passionate volunteers who defied the experts and are helping write a new chapter in the Peopling of the Americas The Yateses DNA findings are revolutionary Stephen C Jett Atlantic Ocean Crossings Monumental Richard L Thornton Apalache Foundation [An Uncommon Cape](#) Eleanor Phillips Brackbill,2012-09-07 When Eleanor Phillips Brackbill bought her suburban Westchester house in 2000 three mysteries came with it First from the former owner came the information that the 1930s house was a Sears house or something like that Thrilled to think it might be a Sears Roebuck Co mail order house Brackbill was determined to find evidence to prove it She found instead a house pedigree of a different sort Second and even more provocative was the discovery of several iron stakes protruding from the property s enormous granite outcropping bigger in square footage than the house itself When queried about them the former owner told her Someone a long time ago kept monkeys there chained to the stakes Monkeys Was this some kind of suburban legend A third mystery came to light at closing when a building inspector s letter contained a reference to the house having had at one time a different address Why would the house have had another address Her curiosity aroused and intent upon finding the facts Brackbill gradually peeled back layers of history allowing the house and the land to tell their stories and uncovering a past inextricably woven into four centuries of American history At the same time she found thirty two owners across 350 years who had just one thing in common ownership of a particular parcel of land An Uncommon Cape not only tells the story of an eight year odyssey of fact finding and speculation but also answers the broader question What came before and through material presented in twenty two sidebars offers readers insights and guidelines on how to find the stories behind their own homes *Proceedings of the Vermont Historical Society* Vermont Historical Society,1864 **Anesthesia History Association Newsletter** ,1982 **The Classical Weekly** ,1923 **Ancient Greek Literature and Society** Charles R. Beye,2019-05-15 Charles R Beye here offers a lively and challenging overview of Greek literature from Homer to Apollonius of Rhodes providing a coherent social and historical background to the era Beye stresses the great distance that separates the twentieth century from the age and audience for which ancient Greek literature was intended He emphasizes those aspects of antiquity which are apt to be most alien to modern day readers particularly the oral nature of early poetry and the public and political and hence manipulative conformist and conventional quality of much of the literature He also notes the openly imitative practices of early authors and establishes the Homeric epics as the dominant informing feature of subsequent literature **Anglo-Saxon Deviant Burial Customs** Andrew Reynolds,2009-03-26 A detailed study of the ways in which Anglo Saxon society dealt with social outcasts It begins with the period following Roman rule and ends in the century following the Norman Conquest The author argues that outcast burials in this period showed a clear pattern of development **The Cambridge History of China**

Denis Crispin Twitchett, John King Fairbank, 1978 International scholars and sinologists discuss culture economic growth social change political processes and foreign influences in China since the earliest pre dynastic period *Classical and Modern Diffraction Theory* Kamill Klem-Musatov, Henning C. Hoerber, Tijmen Jan Moser, Michael A. Pelissier, 2016-06-30 Providing geophysicists with an in depth understanding of the theoretical and applied background for the seismic diffraction method Classical and Modern Diffraction Theory covers the history and foundations of the classical theory and the key elements of the modern diffraction theory Chapters include an overview and a historical review of classical theory a summary of the experimental results illustrating this theory and key principles of the modern theory of diffraction the early cornerstones of classical diffraction theory starting from its inception in the 17th century and an extensive introduction to reprinted works of Grimaldi Huygens and Young details of the classical theory of diffractions as developed in the 19th century and reprinted works of Fresnel Green Helmholtz Kirchhoff and Rayleigh and the cornerstones of the modern theory including Keller s geometrical theory of diffraction boundary layer theory and super resolution Appendices on the Cornu spiral and Babinet s principle are also included
