From History to Theory Kerwin Lee Klein, 2011-05-19 From History to Theory describes major changes in the conceptual language of the humanities particularly in the discourse of history In seven beautifully written closely related essays Kerwin Lee Klein traces the development of academic vocabularies through the dynamically shifting cultural political and linguistic landscapes of the twentieth century He considers the rise and fall of philosophy of history and discusses past attempts to imbue historical discourse with scientific precision He explores the development of the meta narrative and the post Marxist view of history and shows how the present resurgence of old words such as memory in new contexts is providing a way to address marginalized peoples In analyzing linguistic changes in the North American academy From History to Theory innovatively ties semantic shifts in academic discourse to key trends in American society culture and politics

Theory, History, and the Study of Religion in Late Antiquity Maia Kotrosits, 2023-02-09 Theory is not a set of texts it is a style of approach It is to engage in the act of speculation gestures of abstraction that re imagine and dramatize the crises of living This Element is a both a primer for understanding some of the more predominant strands of critical theory in the study of religion in late antiquity and a history of speculative leaps in the field It is a history of dilemmas that the field has tried to work out again and again questions about subjectivity the body agency violence and power This Element additionally presses us on the ethical stakes of our uses of theory and asks how the field s interests in theory help us understand what s going on half spoken in the disciplinary unconscious

Cappadocian Mothers Carla D. Sunberg,2018-01-01 The Cappadocian Fathers had great influence on the church of the fourth century having brought their passion for Christ and theological expertise to life in their ministry Their work was not devoid of influence including that of their immediate family members Within their writings we uncover the lives of seven women the Cappadocian Mothers who may have had more influence on the theology of the church than previously believed As the Cappadocians wrestle with the Christianization of the concept of deification we find the women in their lives becoming models for their theological understanding The lives of the women become points of intersection in the kenosis theosis parabola Not only are the Cappadocian Mothers uncovered in the texts but they become models of an optimistic theology of restoration for all of humanity without constraint of gender **Plurihistoricity** Zoltán Boldizsár Simon,2025-07-25 This

book situates historical scholarship within a plurihistoricity of contemporary historical culture exploring conflicting conceptions of historical change in technological utopias of human enhancement in prospects of human extinction in societal responses to the Anthropocene and in the imperative of bringing colonial patterns of historical injustice to justice Contemporary societies increasingly reclaim history from the academic pursuit of historiography On the one hand societal engagement in history is growing palpably History is literally everywhere in the fallen statues of past political regimes in trajectories of environmental degradation and in technological prospects of space expansion On the other hand societal demand for history seems to diminish rather than strengthen the authority of professionalized historical studies What do these societal historicities stand for How do they create pasts that matter What futures do they desire or attempt to avoid How do they view the historical transitions into those futures And what is the societal role of historical scholarship and scholarly conceptions of history in the plurihistoricity of contemporary historical culture By addressing these questions Simon s book is essential reading for everyone interested in the present and future of viewing the world historically Karl Barth and the Study of the Religious Enlightenment Michael Jimenez,2018-03-01 Encountering the Task of History analyzes

the intellectual history of the eighteenth century provided by Karl Barth most notably in his Protestant Theology in the Nineteenth Century Barth anticipates the recent scholarship on the religious roots impact and significance of the Enlightenment foreshadowing the later and now current challenges to the secularization paradigm This volume seeks to establish a new vantage point through which to understand not only the wider shape of Barth's work itself but also his standing and contribution to public intellectual scholarship

Merry E. Wiesner-Hanks, Merry E. Wiesner, 2019-01-24 This new edition of Merry E Wiesner Hanks's prize winning survey features significant changes to reflect the newest scholarship in every chapter *Sport and the Literary Imagination* Jeffrey Hill, 2006 The development of sport in the twentieth century has been examined from a variety of angles Rarely though has the work of the creative writer been considered in detail This book directs its attention to this neglected area examining a selection of novels in which the subject of sport has featured prominently It highlights the ways in which novelists in the second half of the twentieth century have approached sport explained its place in society and through the sporting subject constructed a critique of the historical circumstances in which their narrative is set The study therefore seeks to complement the increasing body of work on the representation of sport through such media as film television and autobiography It also brings a fresh dimension to the use made by historians of literary sources suggesting that creative fiction can be far more valuable as historical evidence than has customarily been acknowledged Women, Too, Were Blessed David Zakarian, 2021-01-11 The Women Too Were Blessed by David Zakarian is the first extensive study of the representation of women in the fifth century Armenian literature and historiography It investigates the ways in which the ecclesiastical authorities envisioned the role of women in society after Christianisation and reveals some aspects of women's lived experience in the patriarchal society of Armenia The book offers a close scrutiny of all the passages that speak about women examining them within the context of pre Christian Zoroastrian beliefs of the Armenians and the works of Greek and Syriac Church Fathers The texts invariably evince the authors tendency to construct and promote role models of influential pious Christian women who contributed to the preservation and promulgation of the new religion **Truth Considered and Applied** Stewart E. Kelly, 2011 A classroom text for philosophy and theology students learning to defend Christianity with love and truth in the context of history and against the challenges of postmodernist thought **Studying Paul's Letters** Joseph A. Marchal, 2012-04 Joseph A Marchal leads a group of scholars who are also experienced teachers in courses on Paul More than a series of how to essays in interpretation each chapter in this volume shows how differences in starting point and interpretive decisions shape different ways of understanding Paul Each teacher scholar focuses on what a particular method brings to interpretation and applies that method to a text in Paul's letters aiming not just at the beginning student but at the tough choices every teacher must make in balancing information with critical reflection *Scribal Representations and Social Landscapes of the Iron Age Shephelah* Mahri Leonard-Fleckman, 2025-01-17 Mahri Leonard Fleckman focuses on identity and representations of the proximate Other in the Shephelah borderlands in the southwestern region of Iron Age Israel ca 1200-586 BCE presenting irresolution as a practice for historians of the Hebrew Bible and ancient Levant Focusing on two sites Timnah and Gath she takes an interdisciplinary approach to the study of the region and journeys through texts and archaeology that bear witness to the social and political complexities of the Iron Age Shephelah borderlands *Gender Differences and the Making of Liturgical History* Teresa Berger, 2020-03-26 Mapping uncharted territory in the study of

liturgy's past this book offers a history to contemporary questions around gender and liturgical life Teresa Berger looks at liturgy's past through the lens of gender history understood as attending not only to the historically prominent binary of men and women but to all gender identities including intersexed persons ascetic virgins eunuchs and priestly men Demonstrating what a gender attentive inquiry is able to achieve Berger explores both traditional fundamentals such as liturgical space and eucharistic practice and also new ways of studying the past for example by asking about the developing link between liturgical presiding and priestly masculinity Drawing on historical case studies and focusing particularly on the early centuries of Christian worship this book ultimately aims at the present by lifting a veil on liturgy's past to allow for a richly diverse notion of gender differences as these continue to shape liturgical life
