The Superpower of Online Networking Dennis Koutoudis,2021-12-01 Since the origins of business transactions the most important key for professional growth has been the extent of one s social interactions The roster of business associations directly influences the volume and therefore the performance of one s operation Though we live in an ever changing world this rule remains constant adapted in accordance with the trends of the various historical periods And speaking of global change Now enter 2020 The already prevailing dominance of the Internet over the last decades has been dramatically bolstered during the course of the last year The imposition of the pandemic lockdown has brought about the ultimate triumph and omnipresence of the Internet In less than a year social distancing has totally transformed our daily lives and our working environments seeing us avoid our workplaces while working remotely from home a trend which we predict will be very hard to reverse once we return to normality In fact despite or rather because of those limitations to physical social gatherings the gradually yet steadily increasing online community has expanded during the months of the pandemic quarantine at a frenetic pace As of October 2020 4 66 billion people are Internet active which is fifty nine percent of the world s population Such staggering unprecedented figures make the transportation of one s traditional social interactions onto the plane of social networking an act of paramount importance for any professional development lest we run the risk of being left behind During these challenging times in which people feel isolated deprived of human contact let s use online

networking to the maximum Let s create solid synergies that satisfy these cravings for connection and elevate our online business and career prospects

How to Build an Awesome Professional Network Mike Fishbein, 2014-03-27 After realizing the massive importance of building a strong professional network I began scouring the web Amazon and bookstores for resources I found there were resources on related topics such as interpersonal communication but not many great resources on business networking specifically I began asking everyone I know who has had a successful career built a successful business or simply knows a lot of people for their advice on how to build a professional network After compiling the best advice I received studying every relevant book and resource I could find experimenting and practicing I learned a lot about how to effectively make new contacts and build relationships I m extremely excited to be sharing everything I ve learned along the way in this book For better or for worse what you know what you can do or even your credentials are often not as important as who you know Your relationships can often be even more important than your qualifications People prefer to do business with people they like and trust Your relationships and professional network are extremely valuable in growing your business or developing your career Whether it s forming partnerships for your company finding a new job acquiring clients fundraising seeking mentors or recruiting talent for your company your relationships can have an extreme positive or negative impact on your success Your professional network can also be an amazing source for knowledge information expertise and advice For people who hate networking it can seem like a chore I hated networking too when I first started After realizing how important it was meeting some amazing people and benefiting tremendously from it I began to truly enjoy it Networking doesn t have to be a dry exercise the way you may picture it if you don t make it so I ve compiled all of my lessons learned over years of practice study in to this book I ve written it to be completely thorough yet to the point enough as to not waste your time It s a combination of core philosophies as well as actionable tips and techniques The philosophies and tactics I describe in this book have benefited my career tremendously
