Linking Teacher Evaluation And Student Learning:

Linking Teacher Evaluation and Student Learning Pamela D. Tucker, James H. Stronge, 2005-04-15 In *Linking Teacher Evaluation and Student Learning* researchers Pamela D Tucker and James H Stronge show that including measures of student achievement in teacher evaluations can help schools focus their efforts to meet higher standards You ll see how four school systems have built such measures into their evaluation programs in these distinct ways Documenting how desired learning outcomes translated into actual student learning Tracking progress on key content standards Setting annual quantifiable goals for students academic progress Analyzing changes in students achievement test scores The authors explore the strengths of each approach offer insights from teachers and administrators and describe practical ways to incorporate similar measures of student learning into your own evaluation program Detailed appendixes provide hands on tools and resources to help you adapt these approaches to your school s particular needs For any school that is working to meet higher standards linking teacher evaluation to measures of student learning is a powerful way to refocus professional development and improve student achievement *Linking Teacher Evaluation to Professional Development* Laura Goe, Kietha Biggers, Andrew Croft, 2012 Recently teacher evaluation has become a major focus in educational policy debates and research efforts This increased attention to teacher evaluation has raised questions about the relationship between evaluation and student outcomes Rivkin Hanushek and Kain 2005 and others have demonstrated with value added research that there are sizeable differences among teachers in their ability to help students learn at high levels not just across schools but within schools These differences lie at the heart of the current approaches to measuring teacher effectiveness through teacher evaluation The results of these evaluations will be used in many districts and states for accountability purposes to make high stakes decisions about teachers Evaluation may be a tool to help teachers improve but school leaders often lack training in how to use evaluation results to guide teachers toward professional growth However both outcomes of evaluation for accountability and for improvement rely on the same foundation for making decisions reliable and valid evidence about teacher performance and student learning Questions to Support Alignment are appended Contains 1 figure and 2 tables

Tucker, 2000 This book discusses four approaches to incorporating student achievement in teacher evaluation Seven chapters discuss 1 Teacher Evaluation and Student Achievement An Introduction to the Issues 2 What is the Relationship between Teaching and Learning e g whether teachers are responsible for student learning and how to measure student learning 3 Assessing Teacher Performance through Comparative Student Growth The Dallas Value Added Accountability System 4 Assessing Teacher Performance through Repeated Measures of Student Gains The Tennessee Value Added Assessment System 5 Assessing Teacher Performance with Student Work The Oregon Teacher Work Sample Methodology 6 Assessing Teacher Performance in a Standards Based Environment The Thompson Colorado School District and 7 Teacher Evaluation and Student Achievement

What are the Lessons Learned and Where Do We Go from Here e g basic requirements of fair testing programs that are to be used to inform teacher evaluation Chapters 3 6 include information on the purposes of the accountability system and how it was developed student assessment strategies how the accountability system works how the accountability system relates to teacher evaluation the advantages and disadvantages of the accountability system for teacher evaluation and results of implementation Contains 66 references SM Linking Teacher Evaluation and Student Learning Pamela D. Tucker,James H. Stronge,2005 Tucker and Stronge explore a variety of ways to include measures of student achievement in teacher evaluations so that teachers can better focus efforts to improve their practice **Research Linking Teacher Preparation and Student Performance** Edith Guyton,Julie Rainer Dangel,2004 The case studies research and projects presented here strike at the very heart of effective teaching The specific practices to improve student performance outlined here will spark classroom discussion and improve teacher practice *Teacher-Made Assessments* Christopher Gareis,Leslie W. Grant,2013-10-11 Assessment is not only a measure of student learning but a means to student learning Teacher Made Assessments guides you in constructing and using your own classroom tests and rubrics to improve student achievement A practical and accessible resource for classroom teachers it will help you make assessment integral to both teaching and learning **Linking Teacher Preparation Program Design and Implementation to Outcomes for Teachers and Students** Jennifer E. Carinci,Cara Jackson,Stephen J. Meyer,2020-02-01 Improving the use of evidence in teacher preparation is one of the greatest challenges and opportunities for our field The chapters in this volume explore how data availability quality and use within and across preparation programs shed light on the structures policies and practices associated with high quality teacher preparation Chapter authors take on critical questions about the connection between what takes place during teacher preparation and subsequent outcomes for teachers and students which has remained a black box for too long Despite a long history of teacher preparation in the U S and a considerable investment in preservice and in service training much is still to be learned about how pre service preparation impacts teacher effectiveness A strong empirical basis that informs how specific aspects of and approaches to teacher preparation relate to outcomes for graduates and their preK 12 student outcomes will provide a foundation for improved teaching and learning Our book responds to stakeholders collective responsibility to students and teachers to act more deliberately Issues of data availability and quality the uses of data for improvement priorities for future research and opportunities to promote evidence use in teacher preparation are discussed throughout the volume to inspire collective action to push the field towards more use of evidence Chapters present research that uses a variety of research designs methodologies and data sources to explore important questions about the relationship between teacher preparation inputs and outcomes **Improving Instruction Through Supervision, Evaluation, and Professional Development** Michael DiPaola,Charles A. Wagner,2018-02-01 In this second edition of Improving Instruction Through Supervision Evaluation and Professional Development we ve maintained the

conceptual framework while updating sections to provide the most recent research on instructional strategies that have the most promise of helping all students learn Modifications of the law resulting from the reauthorization of the 50 year old Elementary and Secondary Education Act Every Student Succeeds Act ESSA 2015 and their implication for practice are embedded throughout this new edition Updated data collection tools for classroom observations are also provided We included a link to a website that contains all the observation tools in electronic format so that observers can have the opportunity to collect data on a tablet or laptop save the observation data as a PDF file and e mail those data to the teacher observed This new edition recognizes the reality that all principals are responsible for supervision evaluation and professional development of their teachers tasks that are neither simple nor without conflict The primary audience of this text is aspiring and practicing principals We hope to help them understand both the theory and practice of supervision evaluation and professional development However observing instruction collecting data for reflection and having conversations about teaching are not the sole provinces of principals Master teachers teacher leaders and teacher colleagues can also benefit from the supervisory sections of the book especially the chapters on high quality instruction improving instruction and the classroom data collecting tools The book provides numerous tools specifically designed to collect a variety of data in classrooms to improve instruction Embedded in each chapter are exercises to apply Theory into Practice by responding to a set of questions posed by the key issues of the chapter After the explication and illustration of the key concepts and principles of the chapter actual Instructional Leadership Challenges as described by a successful practicing principal for reflection and analysis

The It Factor: What Makes a Teacher Great? Holly J. Thornton, 2018-05-16 The impact a teacher has on students may be profound and lasting Thus teacher preparation is grounded in standards to assure that all teacher candidates know the content and have the skills needed to become good teachers What makes a teacher great The answer is not clear cut or easily measured with tests But we all know a great teacher when we see one The best teachers have an It Factor that sets them apart from others It is seemingly intangible and unteachable as it s often said that Some people are just born to be teachers This book challenges that assumption and uncovers the It Factor Teacher and student voices helped to develop language and tools to examine how teachers are disposed to think and act and how this affects student learning If we can identify what makes teachers great we can teach it Students have a sea of information opinions and messaging at their fingertips They find themselves navigating through a myriad of facts and alternative facts Opinions beliefs and fallacies share the same platform and status as well grounded information and vetted ideas fueling tensions among individuals and distance between groups Developing students who are caring critical thinkers and problem solvers may be more important now than ever The teachers who are right for this challenge have more than content knowledge and teaching skills To meet this challenge teachers need to have It that something inside that makes them not just good teachers but great ones

Evaluating What Good Teachers Do James Stronge, 2013-08-06 This book is based on author

James H Stronge's 20 plus years of consulting with school districts and other educational organizations in designing piloting and training educators in the use of teacher performance evaluation systems. Its primary purpose is to help both teachers and their evaluators collect more comprehensive and accurate assessment data for judging teacher effectiveness. The author provides field tested teacher evaluation systems based on performance standards which include data collection tools and performance appraisal rubrics. *Multidisciplinary Perspectives on Teacher Evaluation* Morgaen Donaldson, 2020-11-26 In the wake of national interest in teacher evaluation this book examines what we have learned about how and whether teacher evaluation holds teachers accountable and improves their practice. Drawing on literature in psychology economics and sociology this multi disciplinary and multi perspectival book explores teacher evaluation's intended goals of development and accountability as well as its unintended consequences especially as they relate to equity. Blending theory from diverse disciplines with decades of research this book provides new insights into how teacher evaluation has played out in schools across the United States and offers recommendations for research policy and practice in the years to come. Insights include how to embed teacher evaluation in a larger culture of continuous learning rethinking assumptions on accountability and development aims and highlighting the importance of equity in the design implementation and outcomes of teacher evaluation. Every chapter concludes with practical recommendations informed by theory and research to guide policymakers researchers and district and school leaders as they seek to understand design and implement better teacher evaluation systems. **Outcomes of High-Quality Clinical Practice in Teacher Education** Diane Yendol-Hoppey, David T.

Hoppey, 2018-07-01 For decades teacher education researchers organizations and policy makers have called for improving teacher education by creating clinically based preparation programs e.g. CAEP 2013 Goodlad 1990 Holmes 1986 1995 National Association for Professional Development Schools 2008 National Council for the Accreditation of Teacher Educators 2001 2010 Zeichner 1990 According to the NCATE Blue Ribbon Report 2010 this approach requires extensive opportunities for prospective teachers to connect and apply what they learn from school and university based teacher educators. Similar to preparing medical professionals clinical practice in teacher education requires the complex and time intensive work of supporting teacher candidate ability to link theory research and practice as well as on going inquiry into best pedagogical practices. Therefore clinically intensive programs expect prospective teachers to blend practitioner and academic knowledge throughout their programs as they learn by doing. NCATE 2010 p. ii However most of the literature to date on clinical practice has been conceptual and often relies on describing program design. The purpose of this book is move past description to study and understand what teacher education programs are learning from research about innovative clinical models of teacher education. Each book chapter highlights research about how programs are studying a variety of outcomes of clinical practice. After an introductory chapter that helps to define and situate clinical practice in teacher education the book is organized into four sections: 1 Outcomes of New Roles 2 Outcomes of New Practices 3 Outcomes of New Coursework

Fieldwork Configurations and 4 Outcomes of New Program Configurations The book wraps up with a discussion that looks across the chapters to find common themes share implications for teacher educators and set the course for future research

School and District Leadership in an Era of Accountability Bruce G. Barnett,Alan R. Shoho,Alex J. Bowers,2013-09-01 Our fourth book in the International Research on School Leadership series focuses on school leadership in an era of high stakes accountability Fueled by sweeping federal education accountability reforms such as the United States No Child Left Behind NCLB and Race to the Top R2T and Australia s Performance Measurement and Reporting Taskforce school systems around the world are being forced to increase academic standards participate in high stakes testing and raise evaluation standards for teachers and principals These results driven reforms are intended to hold educators accountable for student learning and accountable to the public Anderson 2005 p 2 emphasis in original While policymakers and the public debate the merits of student achievement accountability measures P 12 educational leaders do not have the luxury to wait for clear guidance and resources to improve their schools and operating systems Instead successful leaders must balance the need to create learning communities manage the organizational climate and encourage community involvement with the consequences testing has on teacher morale and public scrutiny The chapters in this volume clearly indicate that as school leaders attend to these potentially competing forces this affects their problem solving strategies ability to facilitate change and encourage

community involvement We were delighted with the responses from colleagues around the world who were eager to share their research dealing with how leaders are functioning effectively within a high accountability environment The nine chapters in this volume provide empirical evidence of the strategies school leaders use to cope with problems and negotiate external demands while improving student performance In particular the voices and actions of principals superintendents and school board members are captured in a blend of quantitative and qualitative studies The breadth of studies is impressive ranging from case studies of individual principals to cross district comparisons to national data from the National Center for Education Statistics To highlight important findings we have organized the book into five sections The first section Chapters 2 3 and 4 highlights the problem solving strategies used by principals and superintendents when pressured to turn around low performing schools In the second section Chapters 5 and 6 attention is devoted to ways in which school leaders act as buffers by reducing the impact of external demands within their local school contexts Next Chapters 7 and 8 explore creative ways in which financial analyses can be used to assess the cost effectiveness of programs and services Chapters 9 and 10 examine how principals enact their instructional leadership roles in managing curriculum reforms and evaluating teachers Finally in the last section Chapter 11 Kenneth Leithwood synthesizes the major themes and ideas emerging across these chapters paying particular attention to practical issues influencing school leaders in this era of school reform and accountability as well as promising areas for future research

The Gallup Poll Frank Newport, 2015-11-09 This work is the only complete compilation of polls taken by the Gallup Organization the world's most reliable and widely quoted research firm in calendar year 2013 It is an invaluable tool for ascertaining the pulse of American public opinion as it evolves over the course of a given year and over time documents changing public perceptions of crucial political economic and societal issues It is a necessity for any social science research
