MacKendrick,2016-05-02 Philosophers for millennia have tried to silence the physical musicality of voice in favor of the purity of ideas without matter souls without bodies Nevertheless voices resonate among bodies among texts and across denotation and sound they are singular as unique as fingerprints but irreducibly collective too They are material somatic and musical But voices are also meaningful they give body to concepts that cannot exist in abstractions essential to sense yet in excess of it They can be neither reduced to neurology nor silenced in abstraction They complicate the logos of the beginning and emphasize the enfleshing of all words Through explorations of theology and philosophy pedagogy translation and semiotics all interwoven with song The Matter of Voice works toward reintegrating our thinking about both speaking and authorial voice as fleshy combinings of meaning and music Opinion Writing A.
