Jeff Wall David Campany, 2011-05-27 Examining a work that marked the emergence of photography as an art made for the gallery wall instead of the printed page Jeff Wall's *Picture for Women* 1979 marks the transition of photography as an art form from the printed page to the gallery wall Before this photographs from the orthodox photographic work of Walker Evans to the Conceptual photography of Dan Graham seemed intended for the page even when hung in a gallery In *Picture for Women* a woman looks outward as if at the viewer a camera occupies the center of the photograph the photographer stands on the right Modeled on Manet's famous painting *Un bar aux Folies Bergère* in which a barmaid seems to look directly out of the painting observed by a man on the right *Picture for Women* establishes its own art historical genealogy claiming its rightful position within the canon Wall's photograph is an ambitious attempt to relate the artistic and spectatorial demands of the late 1970s to a modernist pictorial art that had been too hastily rejected by Conceptualism In this illustrated study David Campany offers an account of Wall's move from a Conceptual approach to a reengagement with the idea of a singular as opposed to serial picture He shows that Wall's decision to present his work as a large scale back lit transparency together with his commitment to a singular image amounted to a radical departure He contrasts Wall's idea of the photograph as a tableau or picture inherited from the history of painting with the works of the Pictures Generation including Richard Prince Cindy Sherman and Jack Goldstein and argues that *Picture for Women* is inseparable from the modern fate of the picture in general
