today's era of advanced technology and contribute effectively to the development of the nation the Government of Ghana in 2007 introduced ICT as a major subject of study at the Basic Education Level. In spite of the crucial role ICT plays, pupils especially those at the foundational level lack the basic skills and knowledge in ICT and this manifests in their performance in ICT at the BECE. A careful study of the examiner's report for BECE clearly shows that pupils who wrote the BECE lack understanding of the basic ICT concepts and the questions they asked. This book has been prepared to make it easier for the teachers and the pupils to keep up with the content of the syllabus. The questions are simple and could be answered by all Junior High School students and will also be useful to those at the Senior High Schools. Colleague ICT teachers will also benefit immensely from the use of this book. It can be said confidently and without any dispute that students who use this booklet assiduously would see a great improvement in the way they answer ICT questions at the BECE.
