Between the Psyche and the Polis Anne Whitehead,2017-11-01 This title was first published in 2000 Incorporating studies of Freudian and Marxist approaches to questions of history and memory this timely collection illuminates how history is being refigured in contemporary literary cultural and theoretical studies The contributors to this volume invite the reader to attend to the forms linguistic visual monumental by which a connection with or separation from the past takes place It is current thinking about memory s relationship to history and the ongoing critical reassessment of historicism that preoccupies this collection The volume explores the ways in which current thinking about the past operates within a dialogic space and can be located in relation to multiple perspectives Thus cultural memory can be seen not just as a recent development within the field of cultural studies but as constructing a between space which also draws in aspects of psychoanalysis Similarly

trauma theory may usefully be conceptualized as operating in a rich and complex dynamic between deconstruction and the work of Freud Temporality memory and the past are attended to here in terms of the dislocations of narrative of resistances to linear genealogies to aid the reader in making unanticipated connections between theories and cultures and between the demands of the psyche and the polis **The Annual American Catalogue Cumulated** ,1903 **United Empire** ,1915
