Jesus And Muhammad Parallel Tracks Parallel Lives:

Jesus and Muhammad F. E. Peters, 2010-11-11 Jesus and Muhammad are two of the best known and revered figures in history each with a billion or more global followers Now in this intriguing volume F E Peters offers a clear and compelling analysis of the parallel lives of Jesus and Muhammad the first such in depth comparison in print Like a detective Peters compiles dossiers of what we do and do not know about the lives and portraits of these towering figures drawing on the views of modern historians and the evidence of the Gospels and the Quran With erudition and wit the author nimbly leads the reader through drama and dogma to reveal surprising similarities between the two leaders and their messages Each had a public career as a semi successful preacher Both encountered opposition that threatened their lives and those of their followers Each left a body of teaching purported to be their very words with an urgent imperative that all must become believers in the face of the approaching apocalypse Both are symbols of hope on the one hand and of God s terrible judgment on the other They are bringers of peace and the sword There is however a fundamental difference Muslims revere Muhammad ibn Abdullah of Mecca as a mortal prophet Although known as a prophet in his day the Galilean Jew Jesus was and is believed by his followers to have been the promised Messiah indeed the son of God The Quran records revelations received by Muhammad as the messenger of God whereas the revelations of the Gospels focus on Jesus and the events of his life and death A lasting contribution to interfaith understanding Jesus and Muhammad offers lucid intelligent answers to questions that underlie some of the world s most intractable conflicts *Jesus and Muhammad* F. E. Peters, 2010-11-11 In *Jesus and Muhammad* Peters presents a balanced and objective study of two of the most renowned and controversial individuals in history examining their lives and careers and the paths down which historians both believers and non believers have pursued them over the last century and a half **Routledge Encyclopedia of Ancient Mediterranean Religions**

Eric Orlin, 2015-11-19 The Routledge Encyclopedia of Ancient Mediterranean Religions is the first comprehensive single volume reference work offering authoritative coverage of ancient religions in the Mediterranean world Chronologically the volume s scope extends from pre historical antiquity in the third millennium B C E through the rise of Islam in the seventh century C E An interdisciplinary approach draws out the common issues and elements between and among religious traditions in the Mediterranean basin Key features of the volume include Detailed maps of the Mediterranean World ancient Egypt the Roman Empire and the Hellenistic World A comprehensive timeline of major events innovations and individuals divided by region to provide both a diachronic and pan Mediterranean synchronic view A broad geographical range including western Asia northern Africa and southern Europe This encyclopedia will serve as a key point of reference for all students and scholars interested in ancient Mediterranean culture and society **Jesus, the Gospels, and the Galilean Crisis**

Tucker S. Ferda, 2018-12-27 Tucker S Ferda examines the theory of the Galilean crisis the notion that the historical Jesus himself had grappled with the failure of his mission to Israel While this theory has been neglected since the 19th century due

to research moving to consider the response of the early church to the rejection of the gospel Ferda now provides fresh insight on Jesus own potential crisis of faith Ferda begins by reconstructing the origin of the crisis theory expanding upon histories of New Testament research and considering the contributions made before Hermann Samuel Reimarus He shows how the crisis theory was shaped by earlier and so called pre critical gospel interpretation and examines how despite the claims of modern scholarship the logic of the crisis theory is still a part of current debate Finally Ferda argues that while the crisis theory is a failed hypothesis its suggestions on early success and growing opposition in the ministry as well as its claim that Jesus met and responded to disappointing cases of rejection should be revisited This book resurrects key historical aspects of the crisis theory for contemporary scholarship *The Prophet Muhammad* Stephen Burge,2020-11-12 I B Tauris

in association with the Institute of Ismaili Studies Prophets serve as intermediaries between the human and divine worlds granting them a special status in history across diverse religions and cultures For Muslims the Prophet Muhammad 570 632 CE represents the culmination of the line of monotheistic prophets including Abraham Moses and Jesus In his own lifetime Muhammad overcame opposition and brought reforms firmly establishing a thriving community of believers which would become a major world civilisation Today the Prophet s life and actions continue to inspire the Muslims worldwide The Prophet Muhammad presents an illuminating portrait of Muhammad in his capacity as God s messenger and an exemplary figure to Muslims Revealing the challenges and triumphs of prophecy Stephen Burge examines how prophets have inspired faith communities relationship with the Divine and one another In doing so this engaging account elucidates the enduring influence of prophecy and the profound legacy of the Prophet Muhammad **Memories of Jesus** Halvor

Moxnes,2021-02-09 This is a different book about Jesus It does not study the Gospels as sources for the historical Jesus but reads them as memories about Jesus each Gospel with its characteristic picture of Jesus The book traces the transmission and growth of memories of Jesus in various contexts and in different historical periods It also introduces readers to the little known counterstories to Christian memories in Jewish sources as well as to the rival stories in the Quran A central perspective in the book is the troubling fact that for centuries the memories of Jesus contributed to hate speech against the Jews in Europe The passion narratives in the Gospels put the blame for the death of Jesus upon Jewish leaders and these stories were transmitted across the centuries as historical truth Memories of Jesus have served as identity markers not only for churches but also for societies and countries The last chapters focus on how the memories of Jesus have played an important role in supporting the identity of oppressed and marginalized groups in particular in the contemporary United States **The Quest of the Historical Muhammad and Other Studies on Formative Islam** Stephen J.

Shoemaker,2024-07-09 The lead essay in this book is the first effort to approach the historical figure of Muhammad in a manner comparable to the investigations that biblical scholars have made in the effort to recover the historical figure of Jesus Using comparable methods and approaches this study demonstrates that despite a widely held belief that Islam was born in

the full light of history we in fact know considerably less about both Muhammad and the beginnings of Islam than we do about the historical Jesus and the beginnings of Christianity Also included are republications of four previously published essays dealing with such topics as the Qur'an's status as a late ancient biblical apocryphon the relation between the Jerusalem Temple and the Holy House revered by the Qur'an and the imminent eschatology of the Qur'an and the early Islamic tradition

A Thematic Access-Oriented Bibliography of Jesus's Resurrection Michael J. Alter, 2019-12-31 The keystone of Christianity is Jesus's physical bodily resurrection Present day scholars can be significantly challenged as they forage through voluminous documents on the resurrection of Jesus The literature measures well over seven thousand sources in English language books alone This makes finding specific sources that are most relevant for specific scholarly purposes an arduous task Even when a specific book is relevant finding the parts of the book that are most relevant to the resurrection rather than other topics often requires additional effort A Thematic Access Oriented Bibliography of Jesus's Resurrection addresses these challenges in several ways First the bibliography organizes more than seven thousand English sources into twelve main categories and then thirty four subcategories which are designed to help you find the most relevant literature quickly and efficiently Embedded are pro and con arguments which support efficient access through brief annotations and then annotate the diversity and complexity of the field of religion by including sources that represent a diverse range of views theistic e.g. Christian Jewish Muslim etc. agnostic and nontheistic The objective of this bibliography is to provide convenient access to relevant sources from a variety of perspectives allowing you to browse or find the one source accurately and with ease

A History of the Quests for the Historical Jesus, Volume 1 Colin Brown, Craig A. Evans, 2022-11-08 A comprehensive two volume reassessment of the quests for the historical Jesus that details their origins and underlying presuppositions as well as their ongoing influence on today's biblical and theological scholarship Jesus life and teaching is important to every question we ask about what we believe and why we believe it And yet there has never been common agreement about his identity intentions or teachings even among first century historians and scholars Throughout history different religious and philosophical traditions have attempted to claim Jesus and paint him in the cultural narratives of their heritage creating a labyrinth of conflicting ideas From the evolution of orthodoxy and quests before Albert Schweitzer's famous Old Quest to

today's ongoing questions about criteria, methods, and sources. A History of the Quests for the Historical Jesus not only chronicles the developments but lays the groundwork for the way forward. The late Colin Brown brings his scholarly prowess in both theology and biblical studies to bear on the subject, assessing not only the historical and exegetical nuts and bolts of the debate about Jesus of Nazareth but also its philosophical, sociological, and theological underpinnings. Instead of seeking a bedrock of facts, Brown stresses the role of hermeneutics in formulating questions and seeking answers. Colin Brown was almost finished with the manuscript at the time of his passing in 2019. Brought to its final form by Craig A. Evans, this book promises to become the definitive history and assessment of the quests for the historical Jesus. Volume One covers the period from the beginnings of Christianity to the end of World War II. Volume Two, sold separately, covers the period from the post-War era through contemporary debates.

Theological and Hermeneutical Explorations from Australia Jione Havea, 2020-11-12. This book presents theological, cultural, ecclesial, and hermeneutical explorations from a specific context: Australia. It invites reimagining of theology and hermeneutics against the horizons of indigeneity and sovereignty, contingencies of context, feminist theologies, multiculturalism, and intercultural theologies. Sexual abuse and ecclesial cover-ups, suicide, and worship traditions and betrayal are explored, along with art and popular cultures, climate effects, and climate in justice. Disability theories, Islamic insights, migration, and the images of home and heaps of contextual matters in between are also covered. The chapters are organized into three sections: 1. Roots presents some of the starting points for contextual thinking in Australia and beyond; 2. Wounds attends to the demands of bodies on the line upon theological, biblical, and ecclesial engagements; and 3. Shifts pokes at thinkers and critics.

The Death of a Prophet Stephen J. Shoemaker, 2011-11-29. The oldest Islamic biography of Muhammad, written in the mid-eighth century, relates that the prophet died at Medina in 632. While earlier and more numerous Jewish, Christian, Samaritan, and even Islamic sources indicate that Muhammad survived to lead the conquest of Palestine beginning in 634-35, although this discrepancy has been known for several decades, Stephen J. Shoemaker here writes the first systematic study of the various traditions. Using methods and perspectives borrowed from biblical studies, Shoemaker concludes that these reports of Muhammad's leadership during the Palestinian invasion likely preserve an early Islamic tradition that was later revised to meet the needs of a changing Islamic self-identity. Muhammad and his followers appear to have expected the world to end in the immediate future, perhaps even in their own lifetimes. Shoemaker contends that when the eschatological Hour failed to arrive on schedule and continued to be deferred to an ever more distant point, the meaning of Muhammad's message and the faith that he established needed to be fundamentally rethought by his early followers. The larger purpose of *The Death of a Prophet* exceeds the mere possibility of adjusting the date of Muhammad's death by a few years. Far more important to Shoemaker are questions about the manner in which Islamic origins should be studied. The difference in the early sources affords an important opening through which to explore the nature of primitive Islam more broadly. Arguing for greater methodological unity between the study of Christian and Islamic origins, Shoemaker

emphasizes the potential value of non Islamic sources for reconstructing the history of formative Islam *Routledge Handbook on Early Islam* Herbert Berg, 2017-08-10 The formative period of Islam remains highly contested From the beginning of modern scholarship on this formative period scholars have questioned traditional Muslim accounts on early Islam The scholarly fixation is mirrored by sectarian groups and movements within Islam most of which trace their origins to this period Moreover contemporary movements from Salafists to modernists continue to point to Islam s origins to justify their positions This Handbook provides a definitive overview of early Islam and how this period was understood and deployed by later Muslims It is split into four main parts the first of which explores the debates and positions on the critical texts and figures of early Islam The second part turns to the communities that identified their origins with the Qur n and Mu ammad In addition to the development of Muslim identities and politics of particular focus is the relationship with groups outside or movements inside of the umma the collective community of Muslims The third part looks beyond what happened from the 7th to the 9th centuries CE and explores what that period the events figures and texts have meant for Muslims in the past and what they mean for Muslims today Not all Muslims or scholars are willing to merely reinterpret early Islam and its sources though some are willing to jettison parts or even all of the edifice that has been constructed over almost a millennium and a half The Handbook therefore concludes with discussions of re imaginations and revisions of early Islam and its sources Almost every major debate in the study of Islam and among Muslims looks to the formative period of Islam The wide range of contributions from many of the leading academic experts on the subject therefore means that this book will be a valuable resource for all students and scholars of Islamic studies as well as for anyone with an interest in early Islam **A Prophet Has Appeared** Stephen J. Shoemaker, 2021-03-02 Early Islam has emerged as a lively site of historical investigation and scholars have challenged the traditional accounts of Islamic origins by drawing attention to the wealth of non Islamic sources that describe the rise of Islam A Prophet Has Appeared brings this approach to the classroom This collection provides students and scholars with carefully selected introduced and annotated materials from non Islamic sources dating to the early years of Islam These can be read alone or alongside the Qur an and later Islamic materials Applying historical critical analysis the volume moves these invaluable sources to more equal footing with later Islamic narratives about Muhammad and the formation of his new religious movement Included are new English translations of sources by twenty authors originally written in not only Greek and Latin but also Syriac Georgian Armenian Hebrew and Arabic and spanning a geographic range from England to Egypt and Iran Ideal for the classroom and personal library this sourcebook provides readers with the tools to meaningfully approach a new burgeoning area of Islamic studies *Things that Make for Peace* Anthony Rees, 2020-09-30 In a world that increasingly sees religion as a source of violence this book explores resources from within religious traditions that might help build peace Drawing from the rich textual histories of Christianity and Islam the contributors mine their faith traditions for ways of thinking and ways of being that help shift perceptions about religion and actively contribute to the

growth of peace in our troubled times Not content with retreat into religious exclusivism these essays are an act of sharing something held dear In sharing the thing offered no longer remains the possession of the one who offers and so these essays are an act of vulnerability and trust building In sharing precious things together in giving and receiving peace becomes not only a matter of dialogue but also shared commitments to ways of being

Routledge Handbook on Christian-Muslim Relations David Thomas, 2017-08-16 The matter of Christian Muslim relations cannot be ignored these days While the term itself may not appear all that often relations between the two faiths and their reciprocal perceptions are undeniable influences behind many current conflicts declarations of mutual recognition and peace negotiations not to mention the brooding hatred of religious extremists Since 9 11 relations between the two faiths have in one form or another hardly been away from the news This Handbook contains fundamental information about the major aspects of relations between Christians and Muslims Its various sections follow the history from the early seventh century to the present the major religious issues that have led to disputes between the two faiths and the political implications of religious differences at various stages through history as well as in the present It includes analysis of scriptural and theological themes and explores the characteristics of relations at important points in history and also in various parts of the world today Chapters are devoted to the most significant intellectual interpretations and encounters the main armed clashes including the Crusades and the important documents issued by each faith that in recent years have led the way towards new developments in recognition and acceptance With chapters written by some of the foremost experts in the field the book traces the largely dark history of relations and explains the underlying reasons why Muslims and Christians have found tolerance and respect for the other difficult It is an excellent resource for understanding the past and for highlighting lessons for future relations between the world's two largest religions

Scriptural Polemics Mun'im A. Sirry, 2014 Mun'im Sirry explores polemical passages in the Qur'an examining the interpretation of those passages by reformist exegetes of the first half of the twentieth century

The Apocalypse of Empire Stephen J. Shoemaker, 2018-10-02 In *The Apocalypse of Empire* Stephen J. Shoemaker argues that earliest Islam was a movement driven by urgent eschatological belief that focused on the conquest or liberation of the biblical Holy Land and situates this belief within a broader cultural environment of apocalyptic anticipation Shoemaker looks to the Qur'an's fervent representation of the imminent end of the world and the importance Muhammad and his earliest followers placed on imperial expansion Offering important contemporary context for the imperial eschatology that seems to have fueled the rise of Islam he surveys the political eschatologies of early Byzantine Christianity Judaism and Sasanian Zoroastrianism at the advent of Islam and argues that they often relate imperial ambition to beliefs about the end of the world Moreover he contends formative Islam's embrace of this broader religious trend of Mediterranean late antiquity provides invaluable evidence for understanding the beginnings of the religion at a time when sources are generally scarce and often highly problematic Scholarship on apocalyptic literature in early Judaism and Christianity frequently maintains that

the genre is decidedly anti imperial in its very nature While it may be that early Jewish apocalyptic literature frequently displays this tendency Shoemaker demonstrates that this quality is not characteristic of apocalypticism at all times and in all places In the late antique Mediterranean as in the European Middle Ages apocalypticism was regularly associated with ideas of imperial expansion and triumph which expected the culmination of history to arrive through the universal dominion of a divinely chosen world empire This imperial apocalypticism not only affords an invaluable backdrop for understanding the rise of Islam but also reveals an important transition within the history of Western doctrine during late antiquity **Islamic**
