Kill Bin Laden 1st First Edition Text Only:

Capture Or Kill Nick Fielding, Yosri Fouda, 2012 Khalid Shaikh Mohammed and Ramzi Binalshibh two of bin Laden's key lieutenants the masterminds behind the attacks of September 11 Based on the only interview these masterminds of terror ever gave to the media as well as extensive follow up research Capture or Kill may be the closest we will get to the full inside story of the plot While Mohammed and Binalshibh were among the world's most wanted men and hiding in a safe house in Pakistan they summoned star al Jazeera TV reporter Yosri Fouda for a one of a kind exclusive Fouda knew he might well be walking into a trap as Wall Street Journal reporter Daniel Pearl had done only months before He took the risk and for forty eight hours Fouda listened as Mohammed head of al Qaeda's military committee and Binalshibh the link between Mohammed Atta and the senior al Qaeda leadership proudly claimed responsibility for the attacks on New York and the Pentagon the first time al Qaeda took direct responsibility and detailed for the first time exactly how the plot was conceived and executed The authors uniquely positioned because of their prior unprecedented access and research deliver a thrilling account of what has happened since What has changed in the intervening years to this insidious global network How does Osama bin Laden's capture and death affect its continuing operation This is a must read for anyone who wants to know not only the full truth behind September 11 but also the implications of recent events for the future of global security *Letters from Abu Ghraib, Second Edition* Joshua Casteel, 2017-06-16 Letters from Abu Ghraib a collection of email messages sent by Joshua Casteel to his friends and family during his service as a US Army interrogator and Arabic linguist in the 202nd Military Intelligence Battalion is the raw and intimate record of a soldier in moral conflict with his duties Once a cadet at the US Military Academy at West Point and raised in an Evangelical Christian home Casteel finds himself stationed at Abu Ghraib prison in the wake of the prisoner abuse scandal He is troubled by what he is asked to do there although it is as he writes miles within the bounds of what CNN and the BBC care about Forced to confront the nature of fundamentalism both religious and political Casteel asks himself a fundamental question How should I then live **Asymmetric Killing** Neil C. Renic, 2020-04-30 This book offers an engaging and historically informed account of the moral challenge of radically asymmetric violence warfare conducted by one party in the near complete absence of physical risk across the full scope of a conflict zone What role does physical risk and material threat play in the justifications for killing in war And crucially is there a point at which battlefield violence becomes so one directional as to undermine the moral basis for its use In order to answer these questions Asymmetric Killing delves into the morally contested terrain of the warrior ethos and Just War Tradition locating the historical and contemporary role of reciprocal risk within both This book also engages two historical episodes of battlefield asymmetry military sniping and manned aerial bombing Both modes of violence generated an imbalance of risk between opponents so profound as to call into question their permissibility These now resolved controversies will then be contrasted with the UAV exclusive violence of the United States robotic killing conducted in the absence of a significant military ground

presence in conflict theatres such as Pakistan Yemen and Somalia As will be revealed the radical asymmetry of this latter case is distinct undermining reciprocal risk at the structural level of war Beyond its more resolvable tension with the warrior ethos UAV exclusive violence represents a fundamental challenge to the very coherence of the moral justifications for killing in war

Crusade and Jihad William Roe Polk, 2018-01-01 Encompasses the entire history of the catastrophic encounter between the Global North China Russia Europe Britain and America and Muslim societies from Central Asia to West Africa explaining the deep hostilities between them and how they grew over the centuries Adapted from publisher description

Apocalypse in Islam Jean-Pierre Filiu, 2011 Millenarianism has emerged as a powerful force across the Islamic world Identifying 1979 as a decisive year Filiu stresses the ease with which subsequent events in the Middle East have been incorporated into the intellectual universe of apocalyptic propagandists

Imperial Pilgrims Shawn A. Aghajan, 2022-03-29 This book is an Augustinian interrogation of contemporary Christian accounts of empire just war and terrorism Though Augustine s voice has guided much of the Christian discourse in these conjoined arenas it has not shielded his work from being misappropriated to serve ends that are inimical to his own The US war on terror is the most recent and egregious example of violence that many theologians have unjustly baptized as Augustinian By reading Augustine pastorally rather than merely polemically this work offers a counter narrative and an alternative praxis for the American Christian trying to reconcile her baptism with her citizenship

Morality and War David Fisher, 2011-03-03 A fresh analysis of the just war tradition that addresses key contemporary security challenges including the changing nature of war military preemption and torture the morality of the Iraq war and humanitarian intervention

Holy Terrors, Second Edition Bruce Lincoln, 2010-03-15 It is tempting to regard the perpetrators of the September 11th terrorist attacks as evil incarnate But their motives as Bruce Lincoln s acclaimed Holy Terrors makes clear were profoundly and intensely religious Thus what we need after the events of 9 11 Lincoln argues is greater clarity about what we take religion to be Holy Terrors begins with a gripping dissection of the instruction manual given to each of the 9 11 hijackers In their evocation of passages from the Quran we learn how the terrorists justified acts of destruction and mass murder in the name of God the most merciful the most compassionate Lincoln then offers a provocative comparison of President Bush s October 7 2001 speech announcing U S military action in Afghanistan alongside the videotaped speech released by Osama bin Laden just a few hours later As Lincoln authoritatively demonstrates a close analysis of the rhetoric used by leaders as different as George W Bush and Osama bin Laden as well as Mohamed Atta and even Jerry Falwell betrays startling similarities These commonalities have considerable implications for our understanding of religion and its interrelationships with politics and culture in a postcolonial world implications that Lincoln draws out with skill and sensitivity With a chapter new to this edition Theses on Religion and Violence Holy Terrors remains one of the essential

books on September 11 and a classic study on the character of religion Modernity has ended twice in its Marxist form in 1989 Berlin and in its liberal form on September 11 2001 In order to understand such major historical changes we need both large scale and focused analyses a combination seldom to be found in one volume But here Bruce Lincoln has given us just such a mix of discrete and large picture analysis Stephen Healey Christian Century From time to time there appears a work that serves to focus the wide ranging often contentious discussion of religion s significance within broader cultural dynamics Bruce Lincoln s Holy Terrors is one such text Anyone still struggling toward a more nuanced comprehension of 9 11 would do well to spend time with this book Theodore Pulcini Middle East Journal The Fundamentalist Mindset Charles B.

Strozier,David M. Terman,James W. Jones,Katherine A. Boyd,2010-04-19 This penetrating book sheds light on the psychology of fundamentalism with a particular focus on those who become extremists and fanatics What accounts for the violence that emerges among some fundamentalist groups The contributors to this book identify several factors a radical dualism in which all aspects of life are bluntly categorized as either good or evil a destructive inclination to interpret authoritative texts laws and teachings in the most literal of terms an extreme and totalized conversion experience paranoid thinking and an apocalyptic world view After examining each of these concepts in detail and showing the ways in which they lead to violence among widely disparate groups these engrossing essays explore such areas as fundamentalism in the American experience and among jihadists and they illuminate aspects of the same psychology that contributed to such historical crises as the French Revolution the Nazi movement and post Partition Hindu religious practice **Fountainhead of Jihad** Wahid

(In)Security: Identifying the Invisible Disruptors of Security Gitanjali Adlakha-Hutcheon,Candyce Kelshall,2024-10-12 What does it take to disrupt security How does one disrupt the invisibility of insecurity How does one make the invisible factors that define and impact security visible For a start by giving voice to the unheard and the marginalized engaging non traditional understandings of security that might bring to light the cracks in our current security infrastructure and expose the insecurities that are hidden in plain sight These voices include generational geographic cultural ethnic and gender based perspectives of insecurity which are ignored or simply cannot be heard by traditional notions of security Presently there is a lack of understanding of the language of nuanced hate being whispered from the ground that inform civil discord These call for new intrastate actions that need to be taken to make communities safer and building layers of protective resilience into the continuing existence of the state Unresolved grievances lay the foundation for insecurity and instability for the future at a time when states need cohesiveness more than ever and there are significant invisible insecurities external to the state that need to be revealed The tapestry of interrelationships that enable security within a state requires equity access and agency among communities If we are to achieve this we must learn to see the invisible listen to the unheard and move beyond our static conceptions of security In so doing we build more resilient societies in the face of a dynamic threat environment and ensure the peaceful continued existence of states This book is a sounding board for positive disruption a source for alternative theories tools and models to aid mitigation of the whispered threats and the soft violence which accompanies chauvinism of any one way of being In this edited book the multiplicity of factors that impact security is explored through new lenses to glean insights such that we are better equipped to prevent harm and protect our security
