Intelligent Information and Database Systems Paweł Sitek, Marcin Pietranik, Marek Krótkiewicz, Chutimet Srinilta, 2020-03-03 This volume constitutes the refereed proceedings of the 12th Asian Conference on Intelligent Information and Database Systems ACIIDS 2020 held in Phuket Thailand in March 2020 The total of 50 full papers accepted for publication in these proceedings were carefully reviewed and selected from 180 submissions The papers are organized in the following topical sections advanced big data machine learning and data mining industry applications of intelligent methods and systems artificial intelligence optimization and databases in practical applications intelligent applications of internet of things recommendation and user centric applications of intelligent systems *National Security and Investment Controls* Jens Hillebrand Pohl, Thomas Papadopoulos, Janosch Wiesenthal, 2024-09-16 This third volume in the Springer Studies in Law and Geoeconomics series continues to advance the interdisciplinary field of investment control With a primary focus on geoeconomic strategies this book examines the evolving legal and regulatory frameworks that govern foreign direct investment FDI The volume addresses critical issues such as investment screening foreign subsidies and the balance between national security and economic interests By exploring these themes through an international transnational and comparative law perspective the book offers valuable insights into the mechanisms and implications of investment controls in a globalized economy Contributors provide a detailed analysis of current practices and propose innovative approaches to the challenges posed by FDI in contemporary geopolitical contexts This book is an essential resource for policymakers legal scholars and practitioners involved in the regulation of international investments *Computer-aided Technologies* Razvan Udriou, 2016-12-07 The aim of this book is to present the latest applications trends and developments of computer aided technologies CAX Computer aided technologies are the core of product lifecycle management PLM and human lifecycle management HUM This book has seven chapters organized in two sections Computer Aided Technologies in Engineering and Computer Aided Technologies in Medicine The first section treats the different aspects of PLM including design simulations and analysis manufacturing production planning and quality assurance In the second part of the book are presented CAX applications in medicine focused on clinical decision diagnosis and biosensor design CAX plays a key role in a variety of engineering and medical applications bringing a lot of benefits in product life cycle extending and improving human life

Intelligent Systems and Applications Kohei Arai, Supriya Kapoor, Rahul Bhatia, 2020-08-25 The book Intelligent Systems and Applications Proceedings of the 2020 Intelligent Systems Conference is a remarkable collection of chapters covering a wider range of topics in areas of intelligent systems and artificial intelligence and their applications to the real world The Conference attracted a total of 545 submissions from many academic pioneering researchers scientists industrial engineers students from all around the world These submissions underwent a double blind peer review process Of those 545 submissions 177 submissions have been selected to be included in these proceedings As intelligent systems continue to

replace and sometimes outperform human intelligence in decision making processes they have enabled a larger number of problems to be tackled more effectively This branching out of computational intelligence in several directions and use of intelligent systems in everyday applications have created the need for such an international conference which serves as a venue to report on up to the minute innovations and developments This book collects both theory and application based chapters on all aspects of artificial intelligence from classical to intelligent scope We hope that readers find the volume interesting and valuable it provides the state of the art intelligent methods and techniques for solving real world problems along with a vision of the future research **Nature Inspired Robotics** Jagjit Singh Dhatteval,Kuldeep Singh

Kaswan,Reenu Batra,2024-07-24 This book introduces the theories and methods of Nature Inspired Robotics in artificial intelligence Software and hardware technologies alongside theories and methods illustrate the application of bio inspired artificial intelligence It includes discussions on topics such as Robot Control Manipulators Geometric Transformation Robotic Drive Systems and Nature Inspired Robotic Neural System Elaborating upon recent progress made in five distinct configurations of nature inspired computing it explores the potential applications of this technology in two specific areas neuromorphic computing systems and neuromorphic perceptual systems Discusses advances in cutting edge technology in brain inspired computing perception technologies and aspects of neuromorphic electronics Offers a thorough introduction to two terminal neuromorphic memristors including memristive devices and resistive switching mechanisms Provides comprehensive explorations of spintronic neuromorphic devices and multi terminal neuromorphic devices with cognitive behaviours Includes cognitive behaviour of Inspired Robotics and cognitive technologies with applications in Artificial Intelligence Contains practical discussions of neuromorphic devices based on chalcogenide and organic materials This text acts as a reference book for students scholars and industry professionals *Writing and Designing Manuals and Warnings*

4e Patricia A. Robinson,2009-06-15 Twenty five years ago how many people were thinking about the internet on a daily basis Now you can find everything including technical and instruction manuals online But some things never change Users still need instructions and warnings to guide them in the safe and proper use of products Good design clear instructions and warnings place Manual of Modern Geography ,1871 A Zulu Manual for Beginners D. Tran, 2024-03-01 This proceedings book features selected papers on 12 themes including wireless communications power systems signal processing robotics control systems sustainable energy power electronics intelligent networks and more Covering topics such as performance of reconfigurable intelligent surfaces for 6G communication networks improved neural network algorithms for optimizing the power flow of renewable energy sources anomaly detection using stationary and non stationary signal analysis in data sciences novel object identification and distance estimation algorithms for self driving vehicles the book presents interesting ideas and state of the art overviews

Robotized technologies for enhanced shipyard operations: challenges and solutions Jawad Masood, Felix Vidal, David Castro, Afra M. Pertusa, Abel Feijoo, 2024-03-25 Large component manufacturing relies heavily on manual operations and human workers Human centric solutions can preserve industry specific knowledge extend capabilities and improve job performance Three robotized technologies were developed for shipyard operations ABB and KUKA robot hand guiding systems HGS a lightweight collaborative system for plasma cutting and a cost effective 3D projection system for retrofitting These technologies were developed at the open didactic factory which served as platforms for rapid technological advancement The HGS was integrated with ABB and KUKA and the 3D projection technology and lightweight collaborative system offered a cost effective solution for small and medium shipyards However transitioning to non flat surfaces presents challenges due to geometric variations and discrepancies between the computer aided design model and the actual component **Moody's International Manual**, 1998 *Dynamics in Logistics* Herbert Kotzab, Jürgen

Pannek, Klaus-Dieter Thoben, 2015-12-21 This contributed volume brings together research papers presented at the 4th International Conference on Dynamics in Logistics held in Bremen Germany in February 2014 The conference focused on the identification analysis and description of the dynamics of logistics processes and networks Topics covered range from the modeling and planning of processes to innovative methods like autonomous control and knowledge management to the latest

technologies provided by radio frequency identification mobile communication and networking The growing dynamic poses wholly new challenges logistics processes and networks must be come able to rapidly and flexibly adapt to constantly changing conditions The book primarily addresses the needs of researchers and practitioners from the field of logistics but will also be beneficial for graduate students

Robotic Safety Systems Justin Starr, Christopher Quick, 2024-11-14 This book reboots the conversation about all technologies relating to robot safety It covers key features of industry standards relevant government regulations hardware devices physical safeguards and vendor specific software implementations including FANUC s Dual Check Safety ABB s SafeMove and more Robotic Safety Systems An Applied Approach discusses some of the unique concerns associated with remote I O and systems designed to be controlled over wide area networks including the internet It includes annotated example safety configurations and programs that can be customized and loaded and deployed on existing robots giving the reader tools to immediately apply the lessons learned in this text The text also provides best practices for using cutting edge systems such as cobots and mobile robotic arms with some autonomy systems that have advanced faster than the regulatory frameworks Included are real world examples from FANUC ABB Universal Robots and Kuka the most popular brands on the market Finally as an appendix to this text a case study demonstrating proper use of A3 RIA standards is included This will allow readers to make an informed decision prior to purchasing these expensive references This book is intended for post secondary classes at universities with specializations in robotics or robotic engineering It will also be useful for robot systems integrators design engineers consultants integration experts robot programmers
