Hulen, Jacqueline Heller, Brian K. Butler, 2020-08-14 Early childhood learning is a critical launchpad for every student s social emotional and intellectual growth With What About Us you will discover how to achieve the full potential of PreK 2 classrooms through proven best practices aligned to the PLC at Work process Learn how to work in collaborative teams to determine essential standards design assessments monitor student progress and more Use this resource to ensure every early childhood student gains the strong foundation necessary for an excellent education Understand how the PLC at Work process and early childhood learning go hand in hand Learn the various aspects of what goes into creating an effective PLC for early childhood learning

Explore the environmental cultural and academic needs of an early childhood learner in the formative years Map out effective curricula that encompass the practices embodied by PLC at Work and promote social emotional learning Grasp the importance of operating effectively as a whole school team Contents Chapters Introduction Chapter 1 How the PLC Process Supports Collaborative Teams Creating a Foundation of Learning Chapter 2 What We Want Out Students to Know and Be Able to Do Building a Curriculum Chapter 3 What We Want Out Students to Know and Be Able to Do Determining Essential Standards and Mapping Curriculum Chapter 4 How We Know Students Have Learned Unwrapping Standards and Setting Goals Chapter 5 How We Know Students Have Learned Designing Assessments Chapter 6 How We Respond When Some Students Do or Do Not Learn Conducting Data Discussions and Progress Monitoring Chapter 7 How We Respond When Some Students Do or Do Not Learn Planning Instruction Epilogue Look, Listen, Learn, LEAD Jeffery Smith, Kate Wolfe Maxlow, John Caggianno, Karen L. Sanzo, 2020-10-01 Look Listen Learn LEAD A District Wide Systems Approach to Teaching and Learning in PreK 12 lays out the transformational journey of Hampton City Schools HCS an urban school division of 30 schools in southeastern Virginia Our school district faces numerous challenges such as 62% of students receiving free and reduced price lunch and 14% of students holding an IEP and in 2015 2016 Hampton City Schools state accreditation rate was approximately half the statewide rate and on a downward trend In only three years that was turned around and HCS exceeded the statewide accreditation rate a more than 100% improvement with 100% of our schools accredited without conditions We attribute this in large part to our dedicated educators and their implementation of district wide systems for curriculum instruction checking for student understanding climate and culture The goal of this book is to break down the process of what it takes to bring about large scale educational change that is sustainable We describe a process for developing a strong mission and vision to undergird the work around a variety of district wide systems This book provides insights into how to improve climate and culture create a guaranteed and viable written curriculum establish a process for evaluating its implementation and create a balanced assessment framework to measure student success Complete with example templates action plans and lessons learned this book is a true example of theory into practice to bring about sustained improvement for all learners **Common Core Mathematics in a PLC at Work®, Grades K-2** Timothy D. Kanold, 2012-04-12 This teacher guide illustrates how to sustain successful implementation of the Common Core State Standards for mathematics grades K 2 Discover what students should learn and how they should learn it at each grade level Comprehensive research affirmed analysis tools and strategies will help you and your collaborative team develop and assess student demonstrations of deep conceptual understanding and procedural fluency **Equity Warriors** George S. Perry (Jr.), George S. Perry, Jr., Joan Richardson, 2022-01-14 Equity leadership is a complex and often perilous endeavor particularly in our current era of political polarization The fundamental and paradoxical challenge is advancing equity in a system that was never designed to serve all children Deep systemic change will happen only when educators and their community

partners understand how the interlocking systems in education operate and learn how to crack the codes that have perpetuated those systems A number of books on equity leadership focus on single improvement strategies such as equity audits equitable grading practices and cultural competence However there are few guides to navigating the complex barriers to implementing deep rooted change The proposed title is unique in that it honors the complexity of such change but at the same time equips leaders with actionable strategic moves to advance an equity agenda And while knowing these moves is important knowing when to make the moves is critical The moves are non linear interconnected and sometimes overlapping possibly ambiguous and always situational

Brainless Sameness Bob Sornson,2018-08-16 This book offers a careful look at how we came to have our traditional education system and how it met the needs of a different time By looking back at the past we can take on the task of change without casting blame but with understanding We will consider the systems design of the curriculum driven one size fits all educational model why it no longer meets our needs and how to devise a system which can deliver a better future for our children and for ourselves as educators

D. Rivera, 2014-02-05 This is a methods book for elementary majors and preservice beginning elementary teachers It takes a very practical approach to learning to teach elementary school mathematics in an emerging Age of the Common Core State Standards The Common Core State Standards in Mathematics CCSSM is not meant to be the official mathematics curriculum it was purposefully developed primarily to provide clear learning expectations of mathematics content that are appropriate at every grade level and to help prepare all students to be ready for college and the workplace A quick glance at the Table of Contents in this book indicates a serious engagement with the recommended mathematics underlying the kindergarten through grade 5 portions of the CCSSM first with issues in content practice assessment learning teaching and classroom management pursued next and in that order In this book we explore what it means to teach to the CCSSM within an alignment mindset involving content practice learning teaching and assessment The CCSSM content standards which pertain to mathematical knowledge skills and applications have been carefully crafted so that they are teachable learnable coherent fewer clearer and higher The practice standards which refer to institutionally valued mathematical actions processes and habits have been conceptualized in ways that will hopefully encourage all elementary students to engage with the content standards more deeply than merely acquiring mathematical knowledge by rote and imitation Thus in the CCSSM proficiency in content alone is not sufficient and so does practice without content which is limited Content and practice are both equally important and thus must come together in teaching learning and assessment in order to support authentic mathematical understanding This blended multisourced text is a getting smart book It helps elementary majors and preservice beginning elementary teachers work within the realities of

accountable pedagogy and develop a proactive disposition that is capable of supporting all elementary students in order for them to experience growth in mathematical understanding necessary for middle school and beyond including future careers
