THE ULTIMATE PLAN FOR THE REDEMPTION OF MANKIND JAVIER CLEMENTE ENGONGA AVOMO, 2021-10-09

Humanity is an exceptional creation of God of Creation Human beings cannot destroy themselves without also destroying that part of their divinity that exists and participates in the action of bringing about the best possible future for this special world of existence God's Plan is the destiny of humanity revealed in prophecies from the remotest antiquity of human societies and whose destiny ever renewed is the Ultimate Plan of Redemption of Mankind God does not make mistakes and humanity's greatest mistake has always been to question the infallibility of its own Creator and by focusing on the errors of its own existence man has ceased to see himself as he truly is a supreme being when he chooses to be so and above all when he remembers that God lives in him All good ways lead to God while evil ways lead us away from His light and we know that every time we do wrong That is the great truth To do good is to act according to God's will or rather to walk carefully looking carefully at our steps and not looking back Javier Clemente Engonga 10 08 2021

THE FIRST WAR AGAINST CHINA

JAVIER CLEMENTE ENGONGA AVOMO, The traditions of warfare of different natures with which a part of humanity has become accustomed have made it easy for the first great biological war that has impacted the entire world and to a greater extent the countries with the largest populations to go unnoticed Indeed just like the First and Second World Wars those two great European war conflicts for the control of global resources and territories in Asia and Africa mainly that magical and ultra mutant virus clearly created in some laboratory of the countries that now suffer the most from its consequences is nothing but the third world war or the first global biological war in which the one who has the most to lose in terms of power is China Like the Cold War the war against China is a ruthless and dark conflict and it is not a war of China against anyone or in some case China against China Javier Clemente Engonga 22 07 2021

A COUNTRY WITH A LOT OF POSSIBILITIES JAVIER CLEMENTE ENGONGA AVOMO, Few countries in the world have a real chance of being free independent and prosperous as the Republic of Equatorial Guinea But trying to reinvent the wheel so often calls into question not only the credibility but also the efficiency of trying to build castles on sand Many regions have missed the opportunity to

grow because of many bad decisions behind which only corruption and ignorance prevailed To fly without learning to walk is risky enough but to build a nation without national objectives without nationalism patriotism and brotherhood is to relive the past of subjugation to darkness It is true we are all Guineans but what some people feel for their brothers is often questioned when they oppress with all their decisions the well being of a majority that no longer knows how to express itself that apolitical majority that only asks and demands peace well being and prosperity because it is more than its right But to talk like this in this country is more than talking about politics it is offensive to those who tolerate neither justice nor freedom because to talk about peace is painful for those who destroy peace Javier Clemente Engonga 22 07 2021 **Indie Author's**

Toolbox: How to create, publish, and market your Kindle book Nick Vulich, 2014-06-29 Read this if you want to sell more books make more money as an author or rank higher in your category My name is Nick Vulich The first thing you should know about me is I m not a writer and I m not an expert on self publishing either I never worked in the industry and I don t have any experience working for the big publishers In fact the only thing I consider myself an expert in is how to sell on eBay Amazon and Fiverr So why should you listen to me Like most indie authors I came into publishing through the back door I had a story to tell and one day I just sat down and let it all come out What I wrote wasn t pretty or polished but it helped a lot of people sell more stuff on eBay What I couldn t say with fancy prose I made up for with enthusiasm Because of that my books sold I m not going to lie to you It wasn t easy I read just about every book available on self publishing I studied up on KDP Free days Countdown Deals price pulsing *HOW TO HACK AMAZON* JAVIER CLEMENTE ENGONGA AVOMO, A computer hacker is an expert in this case in computer science who uses his technical knowledge to achieve a goal or overcome an obstacle within a computer system by non standard means Writing a book or two a day is not a very standard means and when it becomes three or two or three hundred titles you start to take it seriously especially when you see the results and the results are obvious when you see the curve growing ever upwards It s only the beginning but a few months can define a lifetime as these last two years have been for humanity as a whole We have all learned that we are very different at the same time as we are similar in the essential that we all want to be alive Death or crisis brings out the best or the worst in us and the reality is that human beings are complex beings I do not consider myself an expert in any branch of computing I have not received any special training in anything to do with computers or computer security My computer does not even have antivirus and is open to access by what for many is a big problem because they believe in their right to privacy and do not think many times about the right of everyone of the whole world to a greater and total security This book is not to encourage or motivate anyone to do anything illegal by misunderstanding the definition of hacking In chess checkmate is the move that consists of threatening the king so that he cannot defend himself and puts an end to the game I do not know how to play table chess because my mind is that of quantum chess I didn t know it before because I didn t know neither my true potential nor that of the world inside my old computer that world which is a wonder Thank you for reading these lines Javier
