Peletz, 2023-11-15 This book provides a historical and ethnographic examination of gender relations in Malay society in particular in the well known state of Negeri Sembilan famous for its unusual mixture of Islam and matrilineal descent Peletz analyzes the diverse ways in which the evocative heavily gendered symbols of reason and passion are deployed by Malay Muslims Unlike many studies of gender this book elucidates the cultural and political processes implicated in the constitution of both feminine and masculine identity It also scrutinizes the relationship between gender and kinship and weighs the role of ideology in everyday life Peletz insists on the importance of examining gender systems not as social isolates but in relation to other patterns of hierarchy and social
