Pupils often make poor choices when it comes to independent learning because they don't intuitively understand how to learn. In the classroom too, they typically misjudge how well they understand new concepts, overestimate the accuracy of their own examples, and underestimate how much they forget. This book reveals how a metacognitive approach to teaching can help overcome these challenges and support pupils in their learning. This approach can help them in developing the skills to become successful self-regulated learners. Drawing on key research from cognitive science, this book explores how metacognition works in practice and argues that it is a complex skill best developed over months and years at school. It provides a blueprint for how learning to learn alongside quick wins that teachers can implement straight away. Chapters cover: The metacognitive processes that underpin effective learning; Myths about learning and how pupils' memory really works; Quick to apply classroom strategies for before, during, and after tasks; Different independent study techniques and how to embed them; Developing a culture of metacognition. Full of practical strategies and case studies, this is essential reading for all teachers who want to help their pupils become successful learners in school as well as independent learners for their exam revision and beyond. ***The School Counselor's Guide to Multi-Tiered Systems of Support*** Emily Goodman-Scott, Jennifer Betters-Bubon, Peg Donohue, Jacob Olsen, 2023-06-20. The revision of this innovative book provides school counseling students, practitioners, leaders, supervisors, and faculty with information and resources regarding the alignment and implementation of school counseling, specifically comprehensive school counseling programs. Complementing and expanding upon the audience's knowledge and implementation of CSCPs such as the ASCA 2019 National Model, chapters include a strong theoretical and research base as well as related practical examples from the field, including case studies of practicing school counselors and relevant hands-on resources and tools to assist school counselors facilitate MTSS. New topics such as culturally sustaining and antiracist practice are woven into the chapters in addition to covering the response to the COVID-19 pandemic, mental health crises, and capturing timely and current practices in K-12 education and school counseling. Innovative, unique, and including a plethora of useful tools and resources, this guide to MTSS and school counseling is ideal for graduate students and current school counselors in the field. **Resources in Education**, 1999.
