

Official McDonald's Employee Training Manual

Menu Overview:

Hello, and welcome to the McDonald's family! Here at McDonald's, in order to maximize efficiency and customer satisfaction, we have standardized our menu to include only one item for you to make: the burger.

The burger is the fastest sandwich to ever be invented—it is always swallowed whole. Nothing but the burger is to ever be served at McDonald's.

Food Preparation:

Now that you're a full-fledged McDonald's employee, you'll be cooking your burgers in 30 seconds or less. Yes! Within this time period, you will be required to find a cow, destroy the cow, cook the destroyed cow, and finally, place the cooked cow's meat on a bun and serve it to the customer.

How To Make A McDonald's Burger:

STEP 1: Turn on griddle.

STEP 2: Destroy cow.

STEP 3: Check time.

STEP 4: Serve on bun.

STEP 5: Turn off griddle.

Per company policy, no matter how many of these steps are completed at the 30-second mark, employees must serve what they have made when their time is up. Sometimes this means you will serve a completed burger, and sometimes this means you will simply serve a partially destroyed cow. Both ways are correct.

And, as always, if the customer should take more than 10 seconds to swallow their burger, they will be removed from the restaurant.

and how they manage to stay that way Looking behind the headlines of spectacular corporate disasters such as Enron and Marconi as well as corporations that are under pressure and going nowhere Corporate Vices identifies the common theme of badly run companies that they fail to realise or just forget the importance of business basics such as productivity as they explore ever more sophisticated and expensive ways of satisfying other more immediate like keeping cash profits high to satisfy shareholders even at the expense of productivity Corporate Vices explores the complex roots and the story of how corporations have allowed themselves to turn business logic on its head with such ease Corporate Vices puts an alternative way of running companies on the table in its many examples of good businesses These are companies that manage to keep their eye on the ball even at a price not achieving corporate glory turning down the latest technology and opportunities to enter new markets Most of all Corporate Vices makes it clear how to spot the difference and then to fix it It asks the questions which everyone stuck in a bad company can't seem to answer like Where did we start to go wrong What does the CEO think he's doing Why can't anyone make a decision any more Whose idea was this merger
