The Prince Castle Dedicated Holding Bins (DHBs) provide the "work-in-process" capacity required for large foodservice operations while performing at peak energy efficiency. With stainless steel constructed exterior and cavity walls, the DHBs feature a solid state digital control system for precise heater temperature control.

The unit features two cavities, each accommodating two (2) third-size, 2 1/2" deep pans - holding a total of four pans. Adjustable upper and lower heaters offer maximum flexibility in setting the precise food holding temperatures.

Exclusive Reli-A-Temp™ infrared heater technology holds food temperatures more consistent with in the designated holding time than other types of heating systems. This exclusive heater design spreads the heat evenly over the entire food holding area, eliminating edge drop off. Food is kept at the desired serving temperature and not overcooked. Extended hold times reduce waste and offer the flexibility to address peak/off-peak demands.

With MenuTrak, Prince Castle DHBs "supervise" menu items by identifying where menu items are located and tracking their respective hold times. MenuTrak also indicates when you should discard old product and begin cooking new product, notifying you that your customers are always being served your best.

The Prince Castle DHBs are backed by a one-year parts and labor warranty.
