Abstract

- [illegible]

1. *Journal of Management Studies*, 1997, 34, 1, 1-14.

There are several English words which have a Latin or Romance root beginning with *al-* and the suffix *-mentum* that give rise to a -*ment* suffix. The following table lists 10 different examples of morphological forms containing the above-mentioned suffix. What is the explanation from Section 2.2 that the English word *element* was chosen as the only one required for the following problem? I suggest you tell me that it is the only word among the 10 that has a morphological root containing the *al-* prefix. It is important for students to understand that, given the fact that *al-* is a prefix, the word *element* is the only one that fits the bill.
