Dudu,2023-03-01 This book critically examines the role of governments in promoting parity during and in post pandemic education This comes from the realisation that the pandemic has deepened the crisis by depleting the meagre resources that African countries might have devoted to normative educational practices where those on the margins would have been pushed further behind while the privileged would have been further initiated into the cultural and capital flows of private schools and historically research intensive institutions of higher learning This has far reaching implications for the education of underprivileged citizens and education particularly modes and modalities of delivery has to be reimagined to subvert the challenges wrought by the pandemic This book

significantly bridges the gap between the pre and post COVID 19 pandemic pedagogical practices and the erstwhile modalities that have been resilient over time The book focuses on ways to stave off pedagogical challenges that face countries as the global pandemic makes its mark **ECEL 2022 21st European Conference on e-Learning** Panagiotis Fotaris, Andrew Blake, 2022-10-27

This important book clearly explains the principles behind best grading practices so that you're ready for all grading questions or scenarios that you may encounter in your classrooms and schools.

**Flash Feedback [Grades 6-12]** Matthew Johnson, 2020-02-11. Beat burnout with time-saving best practices for feedback. For ELA teachers, the danger of burnout is all too real. Inundated with seemingly insurmountable piles of papers to read, respond to, and grade, many teachers often find themselves struggling to balance differentiated, individualized feedback with the one resource they are already overextended on: time. Matthew Johnson offers classroom-tested solutions that not only alleviate the feedback burnout cycle but also lead to significant growth for students. These time-saving strategies, built on best practices for feedback, help to improve relationships, ignite motivation, and increase student ownership of learning. Flash Feedback also takes teachers to the next level of strategic feedback by sharing how to craft effective, efficient, and more memorable feedback. Strategies for scaffolding students through the meta-cognitive work necessary for real revision. A plan for how to create a culture of feedback, including lessons for how to train students in meaningful peer response. Downloadable online tools for teacher and student use. Moving beyond the theory of working smarter, not harder, Flash Feedback works deeper by developing practices for teacher efficiency that also boost effectiveness by increasing students' self-efficacy, improving the clarity of our messages, and ultimately creating a classroom centered around meaningful feedback.

Drawing on her own experiences as an English teacher during the No Child Left Behind era, the author examines school cultures focused on meeting standards and measurable outcomes. **Schoolishness** Susan D. Blum, 2024-05-15 In *Schoolishness* Susan D Blum continues her journey as an anthropologist and educator The author defines schoolishness as educational practices that emphasize packaged learning unimaginative teaching uniformity constant evaluation by others arbitrary forms predetermined time and artificial boundaries resulting in personal and educational alienation dependence and dread Drawing on critical progressive and feminist pedagogy in conversation with the anthropology of learning and building on the insights of her two previous books Blum proposes less schoolish ways of learning in ten dimensions to lessen the mismatch between learning in school and learning in the wild She asks if learning is our human superpower why is it so difficult to accomplish in school In every chapter Blum compares the fake learning of schoolishness with successful examples of authentic learning including in her

own courses which she scrutinizes critically Schoolishness is not a pedagogical how to book but a theory based phenomenology of institutional education It has moral psychological and educational arguments against schoolishness that as Blum notes rhymes with foolishness
