Cold Ambitions The Wonton,2013-12-27 One of the few consistent aspects of my life is that I can be described as a people watcher It is a hobby I engage in every time I am in the presence of others From my observations there is no trait that we humans possess more obvious consistent plentiful and yet undeservedly shunned as a monstrosity of power hungry men than the very trait of ambition I am still always a little surprised when a cringe follows the allegation of such conduct If thought about in an everyday context I could envision few circumstances outside of the atom bomb which would evoke that same recoil Certainly I would say no one would detest written language civilization interstellar technologies and every other realm where mans ambition carries us onward and upward I do however fully recognize the dark side of mans desire and confess my intent fascination in it I find it oddly commendable the risks some are willing to take If administered in the right dosage ones success cannot be quantified But as in life people do choose to overdose It is in these choices and the consequences thereof where the book resides most heavily
