Lucio Fontana Between Utopia And Kitsch October S:

Lucio Fontana Pia Gottschaller, 2012 Lucio Fontana 1899 1968 is widely regarded as one of the most influential and innovative post World War II Italian artists Best known for his tagli slashed mostly monochromatic canvases Fontana fashioned a remarkably multifaceted oeuvre that encompasses architecture sculpture and ceramics as well as painting In his quest to expand the vocabulary of his art Fontana subjected the pictorial surface of his paintings to a remarkable assortment of punctures gashes and slashes as well as adornments of glass fragments glittering aluminum flakes and sand This richly illustrated book the third in the Getty Conservation Institute's Artist's Materials series presents the first technical study in English of this important painter Initial chapters present an informative overview of Fontana's life and work Subsequent chapters examine the nine major cycles of work on canvas that constitute his most important achievement focusing on the physical genesis of these landmark paintings How did Fontana's philosophical concerns influence his choice of materials Once he had settled on an aesthetic concept what precise means did he use to realize it Did physical constraints imposed by the material force him to adjust his concepts In considering these questions this book seeks to illuminate how Fontana's material choices over the course of his career fit into the gradual evolution of idea into form **Material Meanings**

Matthew S. Witkovsky, 2020-03-24 Featuring highlights from Constance R Caplan's noted collection of 20th and 21st century art this publication considers artworks from different media as material objects **Material Imagination** Natalie

Adamson, Steven Harris, 2017-07-24 Material Imagination examines the interrelated concepts of matter materialism and materiality in postwar European art from 1946 1972 Provides a unique perspective on European art by prioritizing material dimensions over concept or context while also paying attention to theoretical and historical concerns Explores artists methods and materials in order to better understand the social and cultural environments in which their works of art were made Demonstrates how materials can be harnessed to affect the critical interpretation of artwork Brings together exceptional illustrations and new research in eight essays by art historians and scholars **Lucio Fontana** Anthony George

White, 2000 **Il fantasma del decorativo** Giuliana Altea, 2012-07-26 Riscoprire il decorativo una delle tendenze estetiche pi riconoscibili del xx secolo Amata dagli artisti simbolisti e Art Nouveau bollata a lungo come superficiale e irrazionale oggi la decorazione riemerge nelle esperienze di un'arte che uscendo dai recinti disciplinari deborda nel quotidiano e sempre pi si identifica con il design Giuliana Altea prende spunto dalle tesi di Jacques Soullilou per esaminare il decorativo come nodo teorico in cui si concentrano le tensioni della nostra cultura Legato ideologicamente al popolare al femminile al primitivo le tre periferie che circondano il soggetto legittimo maschiobianco occidentale il decorativo prende forma in ambiti alti e bassi della produzione culturale come l'arte d'avanguardia l'arredamento d'interni la moda l'architettura o in figure chiave della modernit come la Parisienne o la prostituta un fantasma nel suo accostarsi a identit altre perennemente in bilico tra autonomia ed eteronomia tra singolarit e alterit tra arte e vita Utilizzando gli strumenti analitici dei cultural studies Il

fantasma del decorativo segue le vicende dell'ornamento e della decorazione dalla fine dell'Ottocento in avanti. Il periodo di piena accettazione con i pittori Nabis e l'Art Nouveau fino alla Secessione viennese, la censura con l'avvento del Modernismo, la presenza sorprendente nell'opera delle avanguardie soprattutto in Klee, Mondrian e Kandinskij, la posizione ambigua del Cubismo esemplificata dall'assunzione parodistica e connivente dell'ornamento borghese da parte di Picasso nei suoi collage, l'intreccio simbolico con la figura femminile in Matisse. E ancora nel secondo dopoguerra la dimensione decorativa affiora come spinta all'espansione ambientale nelle opere di artisti quali Jackson Pollock e Lucio Fontana, mentre nel design con Charles e Ray Eames in America e Gio Ponti in Italia assume i tratti di un nuovo Modernismo più caldo e carico di suggestioni emotive. Con l'avvento del postmoderno le periferie diventano centro, l'alterità si trasforma, il decorativo smette di essere opposto all'arte avanzata. Dall'utopia ottocentesca della Gesamtkunstwerk si giunge a un presente in cui tutta l'arte applicata e decorativa applicata al museo e al sistema dell'arte decorativa nel circuito del collezionismo. In attesa di scoprire il prossimo volto del fantasma

Lucio Fontana De Pury & Luxembourg (Gallery), 2002 Lucio Fontana Iria Candela, Emily Braun, Enrico Crispolti, Andrea Giunta, Pia Gottschaller, Anthony White, 2019-01-23 Lucio Fontana 1899-1968 a major figure of postwar European art blurred numerous boundaries in his life and his work. Moving beyond the slashed canvases for which he is renowned, this book takes a fresh look at Fontana's innovations in painting, drawing, ceramics, sculpture, and installation art. p. 1 margin 0 0px 0 0px 0 0px font 14 0px Verdana Fontana was an important figure in both Italy and his native Argentina, where he pushed the painterly into the sculptural and redefined the relationship between mediums. Archival images of environments, public commissions, installations, and now destroyed pieces accompany lavish illustrations of his work from 1930 to the late 1960s, providing a new approach to an artist who helped define the political, cultural, and technological thresholds of the mid-twentieth century. *Discursus politicus de causis & remediis malorum Poloniae, editio 2., Cracoviensi longe correctior, et aliquantum auctior*, 1661 **Lucio Fontana: The Conquest of Space**, 2022-03 Lucio Fontana 1899-1968 is one of the most important avant-garde artists of the twentieth century and continues to inspire artists, designers, and architects. He is known for his iconic monochromatic paintings with vertical cuts. Lucio Fontana: The Conquest of Space highlights the ideas of Fontana's Concetto spaziale and shows how these spatial notions took shape not only in his slashed canvases but also in his sculpture, jewellery, and installations. For Fontana, there was no fundamental distinction between the visual arts, architecture, and design; he was a sculptor by trade and did not allow himself to be limited by disciplines in his conception of space. He was one of the first visual artists to create spatial installations with floating sculptures and neon lights and to collaborate with architects and designers. With photography by Anuschka Blommers and Niels Schumm and texts by Colin Huizing and Paulo Campiglio, this publication is an indispensable overview of Fontana's innovative spatial views on art. Exhibition Design Museum Den Bosch, The Netherlands, 02-10-2021-23-01-2022 **Lucio Fontana: Environments** Lucio Fontana, 2018-05-22 Lucio Fontana 1899-1968 radically transformed our conception of

painting sculpture and space by transcending the two dimensionality of the canvas foreshadowing many movements of the 1960s and 70s such as Arte Povera conceptualism and land art As the founder of Spatialism an artistic movement that emerged in Italy in the late 40s Fontana did away with the distinction between painting and sculpture with his famous slashes and holes in the canvas Environments is focused on Fontana s pioneering work in installation art with a selection of his seminal Ambienti spaziali seen together for the first time The Ambienti spaziali rooms and corridors that the artist began to conceive and design in the late 1940s were almost always destroyed once the exhibition was over they are Fontana s most experimental yet least known works due to their ephemeral nature *Lucio Fontana* Lucio Fontana,2019 **Lucio**

Fontana: Fontana's creative path in twentieth century art Enrico Crispolti, Lucio Fontana, 2006 A historical and critical profile of the complete creative corpus of the artist Covers over four decades of Fontana s creative activity presented in chronological order A rigorous examination of over 4000 works carried out in collaboration with the Lucio Fontana

Gallery, 1961 *Fontana* Barbara Hess, 2006 Concepts in space Artworks as visual explanations of ideas Italian artist Lucio Fontana tore apart the modern art establishment literally Trained initially as a sculptor Fontana 1899 1968 blurred the lines between painting and sculpture by creating works that combined both form and color in a spatial context most famously exemplified by his slashed canvases of the 1950s and 60s Fontana s work was truly conceptual in that the ideas he wanted to express were more important than the actual work itself with titles like Concetto Spaziale Spatial Concept and Scultura Spaziale Spatial Sculpture his pieces served as visual explanations of his ideas From his early work in collaborating with architects through his years in Buenos Aires where in the mid 1940s he published the famous White Manifesto and Technical Manifesto of Spatialism among others his experimental light installations of the early 1950s and his later experiments with various media this book covers the entire career of Italy s pioneering abstract artist About the Series Each book in TASCHEN s Basic Art series features a detailed chronological summary of the life and oeuvre of the artist covering his or her cultural
