

A man in a light-colored jacket and dark trousers is leading a grey donkey through a dry, muddy riverbed. The donkey is carrying a large, rectangular bundle of green grass on its back. The man is holding a long stick and looking down at the donkey. In the background, there is a village with traditional mud-brick buildings built on a hillside. The sky is clear and blue. The ground is dry and dusty with some scattered rocks.

Histories of Conservation and Art History in

Modern Europe Sven Dupré, Jenny Boulboulé, 2022-03-14 This book traces the development of scientific conservation and technical art history. It takes as its starting point the final years of the nineteenth century which saw the establishment of the first museum laboratory in Berlin and ground breaking international conferences on art history and conservation held in pre World War I Germany. It follows the history of conservation and art history until the 1940s when from the ruins of World War II new institutions such as the Istituto Centrale del Restauro emerged which would shape the post war art and conservation world. The book will be of interest to scholars working in art history, conservation history, historiography and history of science and humanities.

Behind the Angel of History Annie Bourneuf, 2022-10-01 The story of artist R H Quaytman's discovery of an engraving hidden behind a famous artwork by Paul Klee. This book begins with artist R H Quaytman uncovering something startling about a picture by Paul Klee. Pasted beneath Klee's 1920 *Angelus Novus* famous for its role in the writings of its first owner Walter Benjamin, Quaytman found that Klee had interleaved a nineteenth century engraving of Martin Luther, leaving just enough visible to provoke questions. *Behind the Angel of History* reveals why this hidden face matters, delving into the intertwined artistic, political and theological issues consuming Germany in the wake of the Great War. With the *Angelus Novus*, Klee responded to a growing call for a new religious art. For Benjamin, Klee's *Angelus* became bound up with the prospect of meaningful dialogue among religions in Germany. Reflecting on Klee's Benjamin's and Quaytman's strategies of superimposing conflicting images, Annie Bourneuf reveals new dimensions of complexity in this iconic work and the writing it inspired.

West Germany, Cold War Europe and the Algerian War Mathilde Von Bulow, 2016-08-22 Examining the clandestine and subversive activities of Algerian nationalists in West Germany and Europe, Mathilde Von Bulow sheds new light on the extent to which FLN activities and French counter measures impacted the conflict in Algeria and the politics of the global Cold War.

Picturing the 'Pregnant' Magdalene in Northern Art, 1430-1550 Penny Howell Jolly, 2016-12-05 Examining innovations in Mary Magdalene imagery in northern art 1430 to 1550, Penny Jolly explores how the saint's widespread popularity drew upon her ability to embody oppositions and embrace a range of paradoxical roles: sinner, prostitute and saint, erotic seductress and holy prophet. Analyzing paintings by Rogier van der Weyden, Quentin Massys and others, Jolly investigates artists' and audiences' responses to increasing religious tensions, expanding art markets and changing roles for women. Using cultural ideas concerning the gendered and pregnant body, Jolly reveals how dress confirms the Magdalene's multivalent nature. In some paintings, her gown's opening laces betray her wantonness, yet simultaneously mark her as Christ's spiritually pregnant Bride; elsewhere, undress reconfirms her erotic nature while paradoxically marking her penitence. In still other works, exotic finery expresses her sanctity while celebrating Antwerp's textile industry. New image types arise as when the saint appears as a lovesick musician playing a lute or as a melancholic contemplative longing for Christ. Some depictions emphasize her intercessory role through innovative pictorial strategies that invite performative viewing or relate her to the mythological Pandora and Italian Renaissance Neoplatonism.

Throughout the Magdalene's ambiguities destabilize readings of her imagery while engaging audiences across a broad social and religious spectrum
