Patton called the Garand The greatest battle implement ever devised At a time when opposing forces were armed with bolt
action rifles US troops had a highly reliable self loader The eight round clips which were used to load the M1 Garand were
however viewed with mixed emotions by the troops on the ground Some Army and Marine Corps troops allegedly felt that the
distinctive twang as the Garand s clip was ejected when empty alerted the enemy that the soldiers were reloading and
resulted in an attack But the Garand became the defining mankiller of the war despite its weight and magazine problems and
many US combat veterans consider it one of the key reasons they survived the war **Gun Digest, 1992** Ken
