INTRODUCTION / KEY CONCEPTS

PICTURE THIS:

A teacher and five fourth graders are sitting at a kidney-shaped table. All are reading silently. After a minute, the teacher taps one child's shoulder, who whisper reads at whatever point he is at in the text. The other four students don't pay any attention to him and continue silent reading. The teacher continues to listen in, tapping students' shoulders, checking for fluent reading. After several minutes, the five students are ready to talk about this section of the chapter book they are reading. The teacher guides the students by asking, "Is the author trying to persuade, inform, or entertain? How do you know? What language does the author use to tell you that?" Students continue to discuss the text with guidance from the teacher's text-dependent questions. **This is guided reading!**

WHAT IS IT?

Guided reading is small-group reading instruction usually involving three to five students grouped homogeneously based on their instructional needs or reading behaviors. Guided reading groups usually last about 20 to 30 minutes per group. Lessons in the upper grades should focus on expanding comprehension skills but may also include practice with multisyllable words, expanding word families while talking about derivational affixes (prefixes and suffixes) like *pre* or *ness* or inflectional endings like *s* or *ed* or focus on related content words. The intent is to help readers internalize strategies to enable their growing independence when reading increasingly complex texts. If needed, these lessons can also focus on foundational skills such as advanced phonemic awareness, phonics, and fluency.

One Child at a Time Pat Johnson, 2023-10-10. Every elementary teacher deals with students who struggle as readers on a daily basis. Each struggling child is complex, and each has a unique history as a learner. In *One Child at a Time*, experienced literacy specialist and consultant Pat Johnson provides a framework she has used in numerous K-6 classrooms to help teachers understand and assist individual children. The four-step process outlined in the book enables teachers to focus carefully on specific strategies and behaviors, analyze them with theoretical and practical lenses, design targeted instruction in keeping with current research on reading process, and then assess and refine the teaching in conferences with the child. The framework is by no means an easy answer to a difficult problem, but through its use, teachers learn how the reading process works for proficient readers and how to support struggling readers as they construct their own reading process. The text is packed with examples of actual conferences with students, detailing how and when Pat and her colleagues intervene to instruct and assess. The examples of follow-up assessment and analysis of struggling readers over days and weeks provide an indispensable model for teachers. Pat shows how to use this framework successfully with a range of learners, including young children, English

language learners and students in the upper elementary grades who are stalled in their literacy progress She builds upon her decades of work as a classroom teacher literacy specialist and consultant in schools with high poverty and diversity to demonstrate how this framework can be useful in any setting Practice with Purpose Debbie Diller,2005 In her 30 years as an educator Debbie Diller has closely examined classroom practice asking Why What s the purpose Watching primary students work successfully at literacy work stations she wondered with teachers Why don t we have upper grade students doing this Could we kick it up a notch In her new book Debbie shows teachers of grades three to six how to structure their classrooms so that all students can be successful doing meaningful independent work using literacy work stations Practice with Purpose offers guidance on establishing routines for independent reading and response writing as well as step by step instructions on how to set up and manage a variety of hands on literacy work stations appropriate for intermediate students Each chapter includes how to introduce the station innovative ways to use materials what to model to guarantee independence how to troubleshoot assessment and accountability ideas how the station supports student achievement on state tests reflection questions for professional development The extensive appendix includes time saving tools such as management board icons graphic organizers task cards and recommended Web sites and children s literature Striking a Balance Nancy L.
