*Organizing Occupy Wall Street* Marisa Holmes, 2023-07-08 This book is the first study of the processes and structures of the Occupy Wall Street movement written from the perspective of a core organizer who was involved from the inception to the end While much has been written on OWS few books have focused on how the movement was organized Marisa Holmes an organizer of OWS in New York City aims to fill this gap by deriving the theory from the practice and analyzing a broad range of original primary sources from collective statements structure documents meeting minutes and live tweets to hundreds of hours of footage from the OWS Media Working Group archive In doing so she reveals how the movement was organized in practice which experiments were most successful and what future generations can learn

**It Came from Something Awful** Dale Beran, 2025-06-25 How 4chan and 8chan fuel white nationalism inspire violence and infect politics The internet has transformed the ways we think and act and by consequence our politics The most impactful recent political movements on the far left and right started with massive online collectives of teenagers Strangely both movements began on the same

website an anime imageboard called 4chan.org. It Came from Something Awful is the fascinating and bizarre story of sites like 4chan and 8chan and their profound effect on youth counterculture. Dale Beran has observed the anonymous messageboard community's shifting activities and interests since the beginning. Sites like 4chan and 8chan are microcosms of the internet itself simultaneously at the vanguard of contemporary culture, politics, comedy, and language and a new low for all of the above. They were the original meme machines, mostly frequented by socially awkward and disenfranchised young men in search of a place to be alone together. During the recession of the late 2000s, the memes became political. 4chan was the online hub of a leftist hacker collective known as Anonymous and a prominent supporter of the Occupy Wall Street movement. But within a few short years, the site's ideology spun on its axis; it became the birthplace and breeding ground of the alt right. In *It Came from Something Awful*, Beran uses his insider's knowledge and natural storytelling ability to chronicle 4chan's strange journey from creating rage comics to inciting riots to, according to some, memeing Donald Trump into the White House.

**The Participant** Christopher M. Kelty, 2020-01-21. Participation is everywhere today. It has been formalized, measured, standardized, scaled up, network enabled, and sent around the world. Platforms, algorithms, and software offer to make participation easier, but new technologies have had the opposite effect. We find ourselves suspicious of how participation extracts our data or monetizes our emotions, and the more procedural participation becomes, the more it seems to recede from our grasp. In this book, Christopher M. Kelty traces four stories of participation across the twentieth century, showing how they are part of a much longer-term problem in relation to the individual and collective experience of representative democracy. Kelty argues that in the last century or so, the power of participation has dwindled over time; it has been formatted in ways that cramp and dwarf it, even as the drive to participate has spread to nearly every kind of human endeavor all around the world. *The Participant* is a historical ethnography of the concept of participation, investigating how the concept has evolved into the form it takes today. It is a book that asks: Why do we participate? And sometimes: Why do we refuse?
