Artificial Intelligence Programming with Python Perry Xiao,2022-02-21 A hands on roadmap to using Python for artificial intelligence programming In Practical Artificial Intelligence Programming with Python From Zero to Hero veteran educator and photophysicist Dr Perry Xiao delivers a thorough introduction to one of the most exciting areas of computer science in modern history The book demystifies artificial intelligence and teaches readers its fundamentals from scratch in simple and plain language and with illustrative code examples Divided into three parts the author explains artificial intelligence generally machine learning and deep learning It tackles a wide variety of useful topics from classification and regression in machine learning to generative adversarial networks He also includes Fulsome introductions to MATLAB Python AI machine learning and deep learning Expansive discussions on supervised and unsupervised machine learning as well as semi supervised learning Practical AI and Python cheat sheet quick references This hands on AI programming guide is perfect for anyone with a basic knowledge of programming including familiarity with variables arrays loops if else statements and file input and output who seeks to understand foundational concepts in AI and AI development *Computing with the Raspberry Pi* Brian Schell,2019-10-21 The Raspberry Pi is about as minimalist as a computer gets but it has the power to run a full Linux operating system and many great desktop and command line tools as well Can you push it to operate at the level of a 2 000 computer This book is here to help you find out The primary focus of this book is getting as much as possible done with a simple Pi through non graphic non mouse means This means the keyboard and the text mode screen On the desktop

side you'll look at many of the most powerful GUI apps available as these offer an easy entry to get started as you learn the command line. You'll begin by setting up and configuring a Raspberry Pi with the option to run it as a graphical desktop environment or even more economically boot straight to the command line. If you want more performance, more efficiency and arguably less complexity from your Pi that can only be found through the keyboard and command line. You'll also set up and configure a Raspberry Pi to use command line tools from within either the Raspberry Pi terminal or by logging in remotely through some other computer. Once in, you'll look at Package Managers, Tmux, Ranger and Midnight Commander as general purpose power tools. The book then gets into specific task oriented tools for reading email, spreadsheet work, notes, security, web browsing and design, social media task and video, password management, coding and much more. There are conceptual overviews of Markdown, LaTeX and Vim for work. What You'll Learn: Set up a Raspberry Pi system to get real work done using only the command line. Login to a Pi remotely to use it as a remote server. Integrate desktop Linux with command line mastery to optimize a Pi. Work with tools for audio, writing news and weather books and graphics. Who This Book Is For: Those with minimal technical skills or hobbyists who are interested in retro computing or minimalist approaches. *Digital scholarly edition in Austria*. Roman Bleier, Helmut W.
