CORDIS Focus ,1998 **You Report to Me** David Bernhardt, 2024-10-22 In this firsthand account David Bernhardt 53rd Secretary of the United States Department of the Interior describes how he witnessed firsthand the administrative state s transformation from a collection of departments under the command of the President into a sprawling and unaccountable bureaucracy Resistance to the Trump presidency within the civil service drew media attention but it was only part of a larger problem a federal bureaucracy that often goes its own way contrary to the policies of elected leadership In this insider s account David L Bernhardt reveals how the bureaucratic swamp really operates and how unaccountable power has been concentrated deep within the administrative state resulting in dysfunction Executive agencies were created to implement legislation and presidential directives yet career civil servants use them to advance their own agendas instead Congress often writes laws broadly letting subject matter experts at administrative agencies fill in the details with regulations Then agency employees sometimes substitute their own policy preferences for actual statutory or regulatory language They may also fail to appreciate that their authority is delegated from an official who answers to the president Bernhardt gives examples of federal employees undermining the administration s policies simply by refusing to work on a task slow walking it or doing a subpar job Administrative agencies have further gained power through judicial deference to an agency s own interpretation of a statute when its enforcement action is challenged Courts essentially abdicate their role of interpreting the law leaving citizens with little recourse against penalties or prohibitions Both legislative and judicial powers have thus been shifted to the executive branch where they are exercised without adequate political oversight Drawing on his experiences working under two administrations Bernhardt explains how President Trump s enabling leadership showed a path for reining in the administrative state He calls on political leadership to turn off autopilot and take control of their agencies and on Congress and the judiciary to assert their constitutional authority before an unaccountable federal bureaucracy destroys the Founders vision of government by consent of the governed **Blue Economy of the Indian Ocean** Ranadhir

Mukhopadhyay, Victor J. Loveson, Sridhar D. Iyer, P.K. Sudarsan, 2020-11-03 The economic paradigms currently dominating the world are not sustainable The threats from climate change exploitation based approaches to commerce and the excess acquisition of resources loom large as well as the possibility of military flare ups Maintaining a balance between development and ecosystems aspirations for growth and the need for sustainability is a prescient challenge The Indian Ocean Region IOR encompasses some of the poorest countries in the world and those that will bear the brunt of the negative impacts from climate change This book explores the immense potential of the IOR and how best to maintain sustainable and responsible

economic and strategic activities The combination of science innovation and entrepreneurship will create a new blue economy business model which has the potential to transform society Based on critical analysis of the model and its practical applications including risks as well as opportunities the topics discussed range from food security energy and resilience to climate change trade and investments and improved maritime connectivity to tourism poverty alleviation and socioeconomic growth encompassing a wide range of interests and expertise FEATURES Examines the geo politics geo resources and geo hazards of the IOR and identifies opportunities and methods to achieve success Covers a detailed assessment of available resources fisheries minerals energy threats such as pollution plastic acoustic carbon bio invasion geo politics maritime security military invasion and strategic vision determining carrying capacity ethical governance and responsible ecosystem of the Indian Ocean Analyzes the economics of the blue economy the global scenario including the Pacific and Caribbean islands and the aspect of the Chinese geo political invasion in the Indian Ocean Inspires entrepreneurs to adopt new ways of creating economic benefits reducing energy use and increasing revenue while simultaneously helping the communities involved Discusses the threat and security perspectives of the IOR and the collective responsibility for a sustainable use of resources Crossing a wide range of interests and expertise this book explores topics and ideas that will be essential to researchers and professionals in marine sciences economics business geography and political sciences Graduate students in the same fields as well as any and all organizations that maintain a presence in the IOR will likewise find this book to be a valuable resource
