Heilman, 2017-07-05 Judaism has long derived its identity from its sacred books The book or scroll rather than the image or idol has been emblematic of Jewish faith and tradition The People of the Book presents a study of a group of Orthodox Jews all of whom live in the modern world engaged in the time honored practice of lernen the repeated review and ritualized study of the sacred texts In preserving one of the activities of Jewish life Samuel C Heilman argues these are the genuine People of the Book For two years Heilman participated in and observed five study circles in New York and Jerusalem engaged in the avocation of lernen the Talmud the great corpus of Jewish law lore and tradition These groups made up of men who felt the ritualized study of sacred texts to be not only a religious obligation but also an appealing way to spend their evenings weekends and holidays assembled together under the guidance of a teacher to review the holy books of their people Having become part of this world the author is able to provide first hand observation of the workings of the study circle Heilman s study moves beyond the merely descriptive into an analysis of the nature and meaning of activity he observed To explain the character and appeal of the study groups he employs three concepts drama fellowship and religion Inherent to the life of the study circle are various sorts of drama social dramas playing out social relationships cultural performances reenacting the Jewish world view and interactional dramas and word plays involving the intricacies of the recitation and translation process This book will be of interest to anthropologists and those interested in the academic study of religion Perl & LWP Sean M. Burke, 2002-06-20 Perl soared to popularity as a language for creating and managing web content but with LWP Library for WWW in Perl Perl is equally adept at consuming information on the Web LWP is a suite of modules for fetching and processing web pages The Web is a vast data source that contains everything from stock prices to movie credits and with LWP all that data is just a few lines of code away Anything

you do on the Web whether it's buying or selling reading or writing uploading or downloading news to e-commerce can be controlled with Perl and LWP. You can automate Web-based purchase orders as easily as you can set up a program to download MP3 files from a web site. Perl LWP covers Understanding LWP and its design Fetching and analyzing URLs Extracting information from HTML using regular expressions and tokens Working with the structure of HTML documents using trees Setting and inspecting HTTP headers and response codes Managing cookies Accessing information that requires authentication Extracting links Cooperating with proxy caches Writing web spiders also known as robots in a safe fashion Perl LWP includes many step-by-step examples that show how to apply the various techniques. Programs to extract information from the web sites of BBC News Altavista ABEBooks.com and the Weather Underground to name just a few are explained in detail so that you understand how and why they work. Perl programmers who want to automate and mine the web can pick up this book and be immediately productive. Written by a contributor to LWP and with a foreword by one of LWP's creators Perl LWP is the authoritative guide to this powerful and popular toolkit.

Law Notes, 1910 Python for DevOps Varghese Chacko, 2025-03-24 DESCRIPTION Python has emerged as a powerhouse for DevOps enabling efficient automation across various stages of software development and deployment. This book bridges the gap between Python programming and DevOps practices providing a practical guide for automating infrastructure workflows and processes empowering you to streamline your development lifecycle. This book begins with foundational Python concepts and their application in Linux system administration and data handling. Progressing through command-line tool development using argparse and Click package management with pip Pipenv and Docker you will explore automating cloud infrastructure with AWS GCP Azure and Kubernetes. The book covers configuration management with Ansible Chef and Puppet and CI/CD pipelines using Jenkins GitLab and GitHub. You will also learn monitoring with Prometheus Grafana and OpenTelemetry MLOps with Kubeflow and MLflow serverless architecture using AWS Lambda Azure Functions and Google Cloud Functions and security automation with DevSecOps practices. The real-world project in this book will ensure the practical application of your learning. By mastering the techniques within this guide you will gain the expertise to automate complex DevOps workflows with Python enhancing your productivity and ensuring robust and scalable deployments making you a highly competent DevOps professional.

WHAT YOU WILL LEARN Automate DevOps tasks using Python for efficiency and scalability Implement infrastructure as code IaC with Python Terraform and Ansible Orchestrate containers with Python Docker Kubernetes and Helm charts Manage cloud infrastructure on AWS Azure and GCP using Python Enhance security monitoring and compliance with Python automation tools Monitor with Prometheus Grafana OpenTelemetry implement MLOps using Kubeflow MLflow and deploy serverless architecture Apply real-world project skills and integrate diverse DevOps automations using Python Ensure robust code quality apply design patterns secure secrets and scale script optimization

WHO THIS BOOK IS FOR This book is for DevOps engineers system administrators software developers students and IT

How Interculturally Competent am I? An Introductory Thesis Writing Course for International Students Yau Tsai, 2014-07-08 This textbook aims to help students to develop thesis writing skills through experiential learning by conducting a research project based on a diary study and reporting on it in a mini thesis It was developed for the benefit of international students who in their penultimate year of undergraduate study are planning to write a graduation thesis in English related to intercultural communication in their final year with little or no prior knowledge of the subject or of thesis writing itself The overarching structure of the book provides a clear overview of the main parts of a thesis and how they fit together It presents wide ranging activities designed to help students to critically analyse and evaluate the academic literature with a specific research question in mind and provides a basic introduction to qualitative research methodology placing a special focus upon the use of diary studies in research Thirteen units guide students through the process of analyzing and evaluating competing models of intercultural competence before using them as frameworks to structure self reflection in a small scale study Along the way students write a series of structured diary entries in response to different kinds of intercultural experience that ultimately allows them to draw conclusions about not only their current level of intercultural competence within the terms they choose to define it but also about the standards they tend to apply in practice To promote extensive reading the textbook may be used in conjunction with its optional accompanying handbook from which many reading passages are drawn Tsai Y and Houghton S *Becoming Intercultural Inside and Outside the Classroom*
