Female Orgasm Michael Bush,2018-04-10 To satisfy a woman on bed especially for those with a small penis might be quite difficult if you don't understand the basics behind making a woman orgasm Before writing this masterpiece I spoke to more than 500 women who have experienced orgasm The statistics are written below 51% said that they anticipated the sex so badly that they climaxed few minutes after the man started thrusting 30% said that the man started out with a fantastic foreplay and hit the right spots when he started thrusting 19% said that they had no idea what the man did but the sex was wonderful The question is where exactly is the right spot If you know about the G spot but have no idea how to hit it right during sex then there is a problem This book will show you exactly how you can make a woman anticipate sex so bad that you would have a field day getting her to climax The right way to go about foreplay thrusting and making her climax even when you have a small penis How to satisfy a woman is simple if you can just read this book Sex positions are not imperative when it comes to pleasing a woman on the bed It is all in a woman s head

writings sometimes manifested brilliant insights or practical wisdom Kirkus Reviews **Getting Intimate** Linn Sandberg, 2011-04-08 This thesis focuses on the intersections of masculinity old age and sexuality from the perspectives of old men themselves how they understand and experience sex and sexuality in later life The study uses qualitative in depth interviews and body diaries an exploratory method that asked men write about their bodies in everyday life Twenty two men born between 1922 and 1942 participated in the study The aim of the thesis is two fold firstly to study sexual subjectivities of old men how old men articulate and make meaning around sexuality in later life Secondly the study aims to explore theoretically what a male body may become in relation to ageing in what ways the ageing male body could be a site for rethinking masculinity and the male body This aim was inspired by feminist theories in dialogue with the deleuzian concept becoming Similarly to gender age is understood to take shape and become intelligible in social and cultural contexts Furthermore the thesis stresses the significance of the specificities of the ageing body to the shaping of masculinity sexuality and subjectivity The body is therefore discussed as an open materiality beyond the binaries of culture and nature materiality This thesis discusses the concepts intimacy and touch as central to how old men's sexual subjectivities take shape allowing for alternative conceptualisations of sexuality beyond erection and intercourse Intimacy and touch are understood and discussed in several different ways By orienting themselves to touch and intimacy the old men emerged as more mature unselfish and with more serene sexual desires This also involved them distancing themselves from the younger man other men whom they perceived as more selfish inconsiderate and with stronger sexual desires Intimacy and touch could in this respect be understood as resources for shaping desirable heterosexual masculinity. An orientation to intimacy and touch enabled old men to appear as neither asexual nor as dirty old men But the study also suggests that a turn to intimacy and touch may open up possibilities for rethinking and reconfiguring sexuality masculinity and the male body. The ageing body then need not be understood as an obstacle but as an enabling site that provides opportunities for intimacy and touch Moreover the thesis presents affirmative old age as an alternative conceptualisation of old age beyond both the discourses of successful ageing and the discourses of old age as negativity and decline As a theory of difference and bodily specificity affirmative old age may be of interest for further feminist theorising Female Sexuality in the Early Medieval Islamic World Pernilla Myrne, 2019-11-14 In the early Islamic world Arabic erotic compendia and sex manuals were a popular literary genre Although primarily written by male authors the erotic publications from this era often emphasised the sexual needs of women and the importance of female romantic fulfilment Pernilla Myrne here explores this phenomenon examining a range of Arabic literature to shed fresh light onto the complexities of female sexuality under the Abbasids and the Buyids Based on an impressive array of neglected medical religious legal literary and entertainment sources Myrne elucidates the tension between depictions of women's strong sexual agency and their subordinated social role in various contexts In the process she uncovers a great diversity of approaches from the 9th to the 11th century including the sexual handbook the Encyclopedia of
