Being a Man in a Transnational World Ernesto Vasquez del Aguila, 2013-10-08 This book explores the masculinity and sexuality of migration analyzing the complex processes of becoming a man and the strategies used by men to reconcile paradoxes and contradictions that co exist between multiple masculinities and contradictory models of being a man Vasquez del Aguila offers a number of conceptual contributions including the notion of masculine capital that provides men with the necessary masculine skills and cultural competence to achieve legitimacy and social recognition as men an analysis of male friendship where notions of solidarity and intimacy co exist with those of distrust competition and power relations and three social representations of being a man the winner the failed and the good enough man By analyzing heterosexual as well as gay masculinities and incorporating race and class relations this study shows the multiplicity and hierarchies of masculinities presented within a particular cultural context Through ethnographic research undertaken over more than four years in New York and Lima Peru this book also examines the role of the Internet and transnational romances and the ways in which migration can create new opportunities for male sexual intimacy while for others it creates loneliness and isolation *Sex and Power* Rita Banerji, 2008-11-14 Sex underlies human existence and if human life is sacred how can sex not be As squeamish as India is today about sex this is also the land where queens once copulated with head horses at religious ceremonies where the art of love making was declared the revelation of the gods and recorded in elaborate detail in the kama sutras and prostitution was a form of sacred offering at temples adorned with erotic sculptures Using India as a

paradigm Rita Banerji illustrates that sexual morality is not an absolute but a facet of living that undergoes periodic upheavals She delineates four major periods in Indian history when there were significant shifts in the collective social perception of sex and sexuality and the associated customs and beliefs What causes this revision in sexual ethos To explain this Sex and Power proposes a modified version of Nietzsche's slave versus master morality theory The theory which is tested against the dynamics of each of the four defined periods establishes that the moral overview of any given period is determined not by a set of pre-existing ethics but by the existent power structure of the period in question The accepted moral code actually serves the party in power How would this theory play out in the context of India today Banerji examines this question at length as one of extreme urgency and concludes that the three most burning issues facing the country today population explosion AIDS and female genocide are the manifestations of a collective sexual malfunctioning of society and need to be redressed in the context of an existent social and economic power hierarchy **The Sexually Rich Marriage**
