[Minding the Public Purse](#) Janice MacKinnon, 2003 Janice MacKinnon became minister of Finance for the province of Saskatchewan in 1993 under NDP Premier Roy Romanow just as the province became the first casualty of the debt and deficit crises that dominated both provincial and federal politics throughout the decade Minding the Public Purse is a unique mixture of political memoir and policy analysis An insider s account of how Saskatchewan avoided fiscal catastrophe it reveals the dynamics of the federal provincial finance ministers meetings that saw the rise of Paul Martin and his radical transformation of Canada s finances MacKinnon Canada s first female finance minister provides keen observations on how personalities and shared regional perspectives cut across party affiliations in the evolution of federal provincial deliberations on managing the debt crisis Although initially opposed to the radical cuts and downloading unilaterally imposed by the federal minister of Finance in his 1995 budget she now argues that they were essential and analyses how they have irrevocably transformed the Canadian federation MacKinnon provides a

History Adam Hart-Davis, 2012-03-20 Homo sapiens have remained the same species largely unchanged in genetic makeup and anatomy since the Cro-Magnon era. By contrast, the cultural, social, and technological changes since then have been nothing less than extraordinary. At the core of this development is the ability of humans to store and transmit knowledge so that each new generation stands upon the shoulders of its predecessors. This ability to use what has gone before is what sets humans apart. Telling our story from prehistory to the present day, DK's *History* is a thought-provoking journey revealing the common threads and forces that have shaped human history. Taking a broad-themed approach, acknowledging varied factors at work from climate, ecology, disease, and geology, and their roles in the human story, this visual celebration makes history accessible and relevant, putting events in their wider context and showing how they have shaped the world we live in. Features inventions, discoveries, and ideas that have shaped world history. Looks at human achievement through artifacts, painting, sculpture, and architecture. Places humankind in context as part of the natural world.

Includes eyewitness accounts and biographies of key figures at turning points in history Gives factors such as climate and natural disasters their full place in the human story Uncovers the past from analyzing ice cores to deciphering extinct languages A comprehensive timeline chronicles the key events of the countries of the world **The End of Parliamentary Socialism** Leo Panitch, Colin Leys, 2001-05-17 Argues against the assertion that there is no alternative to neo liberalism **Elections in Great Britain** ,1997 *The Art of Winning Elections* Republican National Committee (U.S.),1968 **Strategic Forum** ,1994 Congressional Record United States. went on to sign the Anglo Irish agreement One of her many left wing critics watching her that day said I don t approve of her as Prime Minister but by God she s a great tank commander This titanic figure with all her capacities and all her flaws storms from these pages as from no other book **How Ottawa Spends, 2012-2013** G.
