The Oxford Handbook of Word Classes Eva van Lier, 2023-11-22 This handbook explores multiple facets of the study of word classes also known as parts of speech or lexical categories These categories are of fundamental importance to linguistic theory and description both formal and functional and for both language internal analyses and cross linguistic comparison The volume consists of five parts that investigate word classes from different angles Chapters in the first part address a range of fundamental issues including diversity and unity in word classes around the world categorization at different levels of structure the distinction between lexical and functional words and hybrid categories Part II examines the treatment of word classes across a wide range of contemporary linguistic theories such as Cognitive Grammar Minimalist Syntax and Lexical Functional Grammar while the focus of Part III is on individual word classes from major categories such as verb and noun to minor ones such as adpositions and ideophones Part IV provides a number of cross linguistic case studies exploring word classes in families including Afroasiatic Sinitic Mayan Austronesian and in sign languages Chapters in the final part of the book discuss word classes from the perspective of various sub disciplines of linguistics ranging from first and second language acquisition to computational and corpus linguistics Together the contributions showcase the importance of word classes for the whole discipline of linguistics while also highlighting the many ongoing debates in the areas and outlining fruitful avenues for future research

Imagining the Jewish God Leonard Kaplan,Ken Koltun-Fromm,2016-09-09 Jewish art has always been with us but so has a broader canvas of Jewish imaginings in thought in emotion in text and in ritual practice Imagining the Jewish God was there in the beginning as it were engraved

and embedded in the ways Jews lived and responded to their God This book attempts to give voice to these diverse imaginings of the Jewish God and offers these collected essays and poems as a living text meant to provoke a substantive and nourishing dialogue A responsive living covenant lies at the heart of this book a covenantal reciprocity that actively engages the dynamics of Jewish thinking and acting in dialogue with God The contributors to this volume are committed to this form of textual reasoning even as they all move us beyond the text as foundational for the imagined people of the book That people we submit lives and breathes in and beyond the texts of poetry narrative sacred literature film and graphic mediums We imagine the Jewish people and the covenant they respond to as provocative intimations of the divine The essays in this volume seek to draw these vocal intimations out so that we can all hear their resonant call
