**Four Shades of Gray** Simon Peter Rowberry, 2022-04-05 This first book length analysis of Amazon s Kindle explores the platform s technological bibliographical and social impact on publishing Four Shades of Gray offers the first book length analysis of Amazon s Kindle and its impact on publishing Simon Peter Rowberry recounts how Amazon built the infrastructure for a new generation of digital publications then considers the consequences of having a single company control the direction of the publishing industry Exploring the platform from the perspectives of technology texts and uses he shows how the Kindle challenges traditional notions of platforms as discrete entities He argues that Amazon s influence extends beyond disruptive technology to embed itself in all aspects of the publishing trade yet despite industry pushback he says the Kindle has had a positive influence on publishing Rowberry documents the first decade of the Kindle with case studies of Kindle Popular Highlights an account of the digitization of books published after 1922 and a discussion of how Amazon s patent filings reflect a shift in priorities Rowberry argues that while it was initially convenient for the book trade to outsource ebook development to Amazon doing so has had adverse consequences for publishers in the mid and long term limiting opportunities for developing an inclusive and forward thinking digital platform While it has forced publishers to embrace digital forms the Kindle has also empowered some previously marginalized readerships Although it is still too early to judge the long term impact of ebooks compared with that of the older technologies of clay tablets the printing press and offset printing the shockwaves of the Kindle continue to shape publishing

*How We Read Now* Naomi S. Baron, 2021-02-19 An engaging and authoritative guide to the impact of reading medium on learning from a foremost expert in the field We face constant choices about how we read Educators must select classroom materials College students weigh their textbook options Parents make decisions for their children The digital revolution has transformed reading and with the recent turn to remote learning onscreen reading may seem like the only viable option Yet selecting digital is often based on cost or convenience not on educational evidence Now more than ever it is imperative to understand how reading medium actually impacts learning and what strategies we need in order to read effectively in all formats In *How We Read Now* Naomi Baron draws on a wealth of knowledge and research to explain important differences in the way we concentrate understand and remember across multiple formats Mobilizing work from international scholarship along with findings from her own studies of reading practices Baron addresses key challenges from student complaints that print is boring to the hazards of digital reading for critical thinking Rather than arguing for one format over another she explains how we read and learn in different settings shedding new light on the current state of reading The book then crucially connects research insights to concrete applications offering practical approaches for maximizing learning with print digital text audio and video Since screens and audio are now entrenched and invaluable platforms for reading we need to rethink ways of helping readers at all stages use them more wisely *How We Read Now* shows us how to do that

**Information Technology Law** Andrew Murray, 2016 Information Technology Law is the ideal companion for a course of study on IT law and the ways in which it is evolving in response to rapid technological and social change The third edition of this ground breaking textbook develops its unique examination of the legal processes and their relationship to the modern information society Charting the development of the rapid digitization of society and its impact on established legal principles Murray examines the challenges faced with enthusiasm and clarity Following a clearly defined part structure the text begins by defining the information society and discussing how it may be regulated before moving on to explore issues of internet governance privacy and surveillance intellectual property and rights and commerce within the digital sphere Comprehensive and engaging Information Technology Law takes an original and thought provoking approach

to examining this fast moving area of law in context Online Resource Centre The third edition is supported by a range of online resources including An additional chapter on Virtual Environments Audio podcasts suitable for revision Updates to the law post publication A flashcard glossary of key terms and concepts Outline answers to end of chapter questions A link to the author's blog The IT Lawyer Web links [Profiles and Plotlines](#) Katherine D. Johnston, 2023-06-06 Algorithmic data profiling is not merely an important topic in contemporary fiction it is an increasingly dominant form of storytelling and characterization in our society These stories are being told inside boardrooms banks presidential briefings police stations advertising agencies and technology companies And so to the extent that data has taken up storytelling literature must take up data After all profiling coincides with character development surveillance reflects point of view and data points track as plot points in tales of the political economy In Profiles and Plotlines Katherine Johnston engages this energetic reformation of contemporary literature to account for a society and economy of frenetic counting Fiction and poetry are capable of addressing precisely that for which algorithms cannot or do not account the effects of profile culture the ideologies and supposed truth power of data the gendered and racialized dynamics of watching and being watched and the politics of who counts and what gets counted Johnston analyzes prescient work by contemporary authors such as Jennifer Egan Claudia Rankine Mohsin Hamid and William Gibson to probe how the claims of data surveillance serve to make lives seem legible intelligible and sometimes even expendable

*Digest* ,1894 *Literature and Social Media* Bronwen Thomas,2020-01-31 From Instapoetry to BookTube contemporary literary cultures and practices are increasingly intertwined with social media In this lively and wide ranging study Bronwen Thomas explores how social media provides new ways of connecting with and rediscovering established literary works and authors while also facilitating the emergence of unique and distinctive forms of creative expression The book takes a 360 approach to the subject combining analysis of current forms and practices with an examination of how social media fosters ongoing collaborative discourse amongst both informal and formal literary networks and demonstrating how the participatory practices of social media have the potential to radically transform how literature is produced shared and

circulated The first study of its kind to focus specifically on social media Literature and Social Media provides a timely and engaging account of the state of the art while interrogating the rhetoric that so often accompanies discussion of the new in this context *Weekly World News*, 1993-06-29 Rooted in the creative success of over 30 years of supermarket tabloid publishing the *Weekly World News* has been the world's only reliable news source since 1979 The online hub [www.weeklyworldnews.com](http://www.weeklyworldnews.com) is a leading entertainment news site

**Bodies and Books** Gillian Silverman, 2012-07-24 In nineteenth century America Gillian Silverman contends reading and particularly book reading precipitated intense fantasies of communion In handling a book the reader imagined touching and being touched by the people affiliated with that book's narrative world an author a character a fellow reader This experience often led to a sense of consubstantiality a fantasy that the reader the material book and the imagined other were momentarily merged Such a fantasy challenges psychological conceptions of discrete subjectivity along with the very notion of corporeal integrity the idea that we are detached skin bound and autonomously functioning entities It forces us to envision readers not as liberal subjects pursuing reading as a means toward privacy interiority and individuation but rather as communal beings inseparable from objects in our psychic and phenomenal world While theorists have long emphasized the way reading can promote a sense of abstract belonging *Bodies and Books* emphasizes the intense somatic bonds that nineteenth century subjects experienced while reading Silverman bridges the gap between the cognitive and material effects of reading arguing that the two worked in tandem enabling readers to feel deep communion with objects both human and nonhuman in the external world Drawing on the letters and diaries of nineteenth century readers along with literary works by Herman Melville Frederick Douglass Susan Warner and others Silverman explores the book as a technology of intimacy and ponders what nineteenth century readers might be able to teach us two centuries later
