Language in the Schools Kristin Denham, Anne Lobeck, 2006-04-21. *Language in the Schools: Integrating Linguistic Knowledge Into K-12 Teaching* addresses two important questions: What aspects of linguistic knowledge are most useful for teachers to know? What kinds of activities and projects are most effective in introducing those aspects of linguistic knowledge to K-12 students? The volume focuses on how basic linguistic knowledge can inform teachers' approaches to language issues in the multicultural, linguistically diverse classroom. The text also includes examples of practical applications of language awareness to pedagogy, assessment, and curriculum construction, which support the current goals of language arts, bilingual, and ESL education. *Language in the Schools: Integrating Linguistic Knowledge Into K-12 Teaching* contributes to the resources on linguistics and education by taking prospective teachers beyond basic linguistics to ways in which linguistics can productively inform their teaching and raise their students' awareness of language.
