

# The Basic Process of Whiskey Making

## Preparation

Various grains are ground and cooked. Barley is malted, a process of soaking the barley and sprouting it for about three weeks, allowing it to sprout, and drying and heating it.

## Mashing

The cooked grain and malted barley are added to warm water, which converts into a liquid known as mash.

## Fermenting

The mash is added to a fermentation tank, along with yeast. The yeast converts the sugar to alcohol. After three or four days, the resulting liquid is about 10% alcohol and is known as distiller's beer, or wash.

## Distilling

The wash is heated to the point where the alcohol turns to vapor, but the water remains liquid. The alcohol is then collected in a second container. This process is repeated to produce "high wine" or "new whiskey."

## Aging

Water is added to the high wine, which is then aged in wooden barrels, usually made from charred white oak. Here the whiskey ages at least three or four years, and some are aged up to ten or fifteen years.

## Bottling

The resulting whiskey is moved to glass bottles, which do not react with the whiskey's flavor.

**A Guide to Non-Jazz Improvisation: Fiddle**

**Edition** Dick Weissman, Dan Fox, 2010-12-29 The non jazz improvisation series is a concept that germinated in Dick Weissman's mind while he was attending music school. He wrote a 15 piece arrangement of the old square dance tune Cripple Creek and wanted the trombone to take a solo as part of the arrangement. When the trombonist kept playing a bebop solo that was totally unsuitable for the chart, Dick realized that in addition to the many musicians who do not improvise, there are even jazz musicians who don't know how to improvise outside the limits of their own stylistic backgrounds. The non jazz improvisation series mostly includes new original tunes that are intended to show how to improvise in many musical styles including Blues, Country, American folk, Latin American, World music including South American, Eastern European and Asian, Odd meters, playing in a variety of time signatures, New Age, Classical, Folk, Rock. In short, the books are an encyclopedia of virtually every musical style excluding jazz.
