Market Timing Solutions for Beginner Traders J. Geruto, Trading is challenging for most people especially beginners because they simply don t have information tools or confidence to become successful This book is important for beginners because it tells it like it is and gives an inside look at trading the financial markets giving you the reality on what the live market is really like the way they are really run and tells you who runs them and what you need to do as a self directed beginner to survive in them Let s face it it s a well known fact that 97% of brand new self directed investors and traders fail and lose all of their money because they cannot see the turn in price why does this happen It happens because brand new self directed traders enter into this business without the proper training and tools for them to compete against the best traders in the world and a bunch of misguided grandiose ideas of making a million dollars from trading and while you can surely make millions of dollars from trading you would need to be using hundreds of millions of dollars of

capital to do so no joke As a brand new self directed trader you have no idea of the brutality and volatility that goes on in the live markets on a daily basis and that there are people in the live markets who will walk over dead bodies to get paid so make no mistake as a beginner and think you can go in the live market and beat them you can't What you can do though is properly prepare yourself to see turns in price action with a high degree of certainty Once you have completed reading this entire book you will have an idea of what you need to do to see turns in price and have a chance at competing with the best professional traders on the planet not to mention the machines The information in this book will put you on the fast track to being able to make an unlimited income for yourself and becoming consistently profitable enough from trading the financial markets to perhaps even making a living from doing it isn't that the type of business you would like to be in **The Pilot**, 1903

How to get Rich from Trading Josef Argent, New people getting into financial market trading most of the time have not done their research and have no idea they are entering a business where there are people in the live market who will walk over dead bodies to make money They are entering a business where the smart money in the business are looking to drain your trading capital account on a daily basis and most of the time they do because new people come into the business unprepared or at best under prepared as well as underfunded and have not developed a trading edge before they enter the market with real money How to get Rich from Trading is meant to expedite your learning curve which can sometimes be long and costly You can Google this or that information however it would take you many years to learn what I am going to tell you in this book before you could invest any of your hard earned real money in the live markets and have a chance making real money trading in the financial markets of the world and some of the information in the book is specific to it and can't be found anywhere else The best part about the method of trading in this book is that it can be used in any tradable liquid market on any time frame you wish to work in and anyone can learn it fast and make money right away with once they master learning how to use it properly How to get Rich from Trading gives you the first steps needed to end up in the group of traders that achieves consistent low risk profits on a daily basis the professionals and the smart money If you are not ready to take that step yet then you may end up part of the group called the sheeple of the herd that provides those profits and make up the 97% of traders who lose all of their money from not being prepared to work in this brutal and harsh business While that may seem like a harsh statement I think it's important to point out the a few of the harshest realities of how the markets work right up front so you know what's at stake when your hard earned money is at risk in the live market it is the sole purpose of this book Ask yourself this question do I want to be the one who pays or do I want to be the one who gets paid
