Moving In and Out of Islam Karin van Nieuwkerk, 2018-12-05 Embracing a new religion or leaving one's faith usually constitutes a significant milestone in a person's life. While a number of scholars have examined the reasons why people convert to Islam, few have investigated why people leave the faith and what the consequences are for doing so. Taking a holistic approach to conversion and deconversion, *Moving In and Out of Islam* explores the experiences of people who have come into the faith along with those who have chosen to leave it, including some individuals who have both moved into and out of Islam over the course of their lives. Sixteen empirical case studies trace the processes of moving in or out of Islam in Western and Central Europe, the United States, Canada, and the Middle East. Going beyond fixed notions of conversion or apostasy, the contributors focus on the ambiguity, doubts, and nonlinear trajectories of both moving in and out of Islam. They show how people shifting in either direction have to learn or unlearn habits and change their styles of clothing, dietary restrictions, and ways of interacting with their communities. They also look at how communities react to both converts to the religion and converts out of it, including controversies over the death penalty for apostates. The contributors cover the political aspects of conversion as well, including debates on radicalization in the era of the war on terror and the role of moderate Islam in conversions. **The Caliph and the Imam** Toby Matthiesen, 2023 The authoritative account of the sectarian division that for centuries has shaped events in the Middle East and the Islamic world. In 632, soon after the prophet Muhammad died, a struggle broke out among his followers as to who would succeed him. The majority argued that the new leader of Islam should be elected by the community's elite. Others believed only members of Muhammad's family could lead. This dispute over who should guide Muslims, the appointed Caliph or the bloodline Imam, marks the origin of the Sunni-Shii split in Islam. Toby Matthiesen explores this hugely significant division from its origins to the present day. Moving chronologically, his book sheds light on the many ways that it has shaped the Islamic world, outlining how, over the centuries, Sunnism and Shiism became Islam's two main branches, particularly after the Muslim Empires embraced sectarian identity. It reveals how colonial rule institutionalised divisions between Sunnism and Shiism, both on the Indian subcontinent and in the greater Middle East, giving rise to pan-Islamic resistance and Sunni and Shii revivalism. It then focuses on the fall

out from the 1979 revolution in Iran and the US led military intervention in Iraq As Matthiesen shows however though Sunnism and Shiism have had a long and antagonistic history most Muslims have led lives characterised by confessional ambiguity and peaceful co existence Tensions arise when sectarian identity becomes linked to politics Based on a synthesis of decades of scholarship in numerous languages The Caliph and the Imam will become the standard text for readers looking for a deeper understanding of contemporary sectarian conflict and its historical roots **The Shia Imami Ismaili Muslims**

Safran, 2013-04-09 Al Andalus the Arabic name for the medieval Islamic state in Iberia endured for over 750 years following the Arab and Berber conquest of Hispania in 711 While the popular perception of al Andalus is that of a land of religious tolerance and cultural cooperation the fact is that we know relatively little about how Muslims governed Christians and Jews in al Andalus and about social relations among Muslims Christians and Jews In *Defining Boundaries in al Andalus* Janina M Safran takes a close look at the structure and practice of Muslim political and legal religious authority and offers a rare look at intercommunal life in Iberia during the first three centuries of Islamic rule Safran makes creative use of a body of evidence that until now has gone largely untapped by historians the writings and opinions of Andalusí and Maghribí jurists during the Umayyad dynasty These sources enable her to bring to life a society undergoing dramatic transformation Obvious differences between conquerors and conquered and Muslims and non Muslims became blurred over time by transculturation intermarriage and conversion Safran examines ample evidence of intimate contact between individuals of different religious communities and of legal juridical accommodation to develop an argument about how legal religious authorities interpreted the social contract between the Muslim regime and the Christian and Jewish populations Providing a variety of examples of boundary testing and negotiation and bringing judges jurists and their legal opinions and texts into the narrative of Andalusí history Safran deepens our understanding of the politics of Umayyad rule makes Islamic law tangibly social and renders intercommunal relations vividly personal *Islam* Cenap Çakmak, 2017-05-18 This expansive four volume encyclopedia presents a broad introduction to Islam that enables learning about the fundamental role of Islam in world history and promotes greater
