paradoxical claim that love is giving what you don't have. He shows how the emptiness or lack we feel within ourselves gets covered over or entwined in love and how it is possible and indeed vital to give something to another that we feel we ourselves don't have. This first ever commentary on Lacan's Seminar VIII Transference provides readers with a clear and systematic introduction to Lacan's views on love. It will be of great value to students and scholars of psychology and of the humanities generally and to analysts of all persuasions. *Photoshop Elements 10 for Windows and Mac OS X* Jeff

Carlson, 2012. Annotation: This guide shows how to make your images pop with Photoshop Elements 10, Adobe's image editing software for professionals and amateurs. It has been updated to reflect new features and is loaded with tips and techniques and illustrated with hundreds of screenshots. **Show Me Microsoft Office 2003** Steve Johnson, 2003. Microsoft Office 2003 provides a powerful integrated suite of programs with which to create and share documents and presentations, communicate and analyze business information. It takes advantage of the latest technologies such as XML and Microsoft SharePoint to extend desktop productivity and workspace collaboration over an intranet or the Internet. This visual book covers these changes and all other important features of the Office system in a format that is easy for new users to get working quickly and upgrading users to learn what's different in this version. Other features of the book include a Troubleshooting Guide to help solve common problems, a Project Guide with a listing of real world projects by feature, and a MOS Exam Guide with a complete listing of MOS objectives. This provides a definite advantage over the competition since no other visual book offers this feature. Topics covered in this book are Word, Excel, PowerPoint, Access, Outlook, Publisher, creating web pages with Office, sharing information within Office, Docs collaboration with Office, and InfoPath 2003.
