then self publishing Self publishing is the way that many writers today are choosing to get their book out to the public Self publishing today is not the same as it was years ago when you had to spend thousands of dollars to publish your book You can self publish a book for as little as 500 when you choose a good self publishing service online The first thing that you need to do is to know your genre The one rule of writing is that you should write about what you know If you have a specific genre that you read chances are that this is what you will want to write about Take a look at your interests and the type of books that you read before you decide on your genre Your book should never be just about making money it should be about something for which you have a passion There are many different genres available in both fiction and non fiction Before you start your book have a plan of what it will be about and the genre it will fill You need to have a specific genre when you are writing a book so that you will be able to market it properly Some books will cross genre lines such as paranormal and romance Some books will fit neatly into a specific genre It should be clear what the book is about to the reader so that they will be interested in what you have written enough to buy the book Most readers have types of books that they like to read and tend to stick to one or two genres If you are writing a non fiction book there are also genres You need to make your book stand out among the rest in a way that will set it apart from other books of the same genre [How to Publish Your Own Book](#) Stewart Ferris,2006-08-08 When you ve written a book you want to see it in print You want people to read and enjoy it The only thing standing in your way is the publishing industry which rejects 98 per cent of the manuscripts submitted to it Why not skip months of collecting rejection slips and simply join them at their own game Anyone can publish their own book and the cost can be as little as zero In this easy to use guide Stewart Ferris explains everything you need to know to be able to convert your manuscript into a printed book and to get that book selling in the shops or to sell it online as an eBook Stewart created the UK s first self publishing agency in 1993 with his business partner Alastair Williams offering authors all the services and advice they needed to publish and sell their own books *Self-Publishing Guide for Independent Authors* Anthony Ekanem,2020-04-29 If you have ever dreamed of writing and publishing your own book you can realise that dream through self publishing Self publishing is the route many writers choose these days to make their works available to the reading public Self publishing today is different from what it used to be many years ago when authors had to spend a lot of money to publish their book Today authors can self publish their book for free or for as little as 100 depending on the self publishing platform they choose As a soon to be author the first thing you need to do to self publish a book is to know your genre One of the rules of writing is that you should write about what you know If you have a specific genre that you enjoy reading chances are that that is the genre you will want or like to write about Consider your interests and the types of book that you read before you decide on the genre you want to venture into Your major aim of writing a book should not be to make money It should be about something you have interest and passion for There a lot of genres available in both fiction and non fiction writing Before you start writing your book have a plan of what the book will be about and the genre it will fit

in You need to focus on a specific genre when you are writing a book so you can market it Some books may cross genre lines such as paranormal and romance books while some books will fit neatly into a genre What your book is about should be very clear to the would be reader so they will be interested in what you have written to want to buy the book Most readers have the types of books they like to read and have a habit of sticking to a few genres There are different genres for both fiction and non fiction books You need to make sure your book stands out from other books in the same category If you are writing a romance novel for instance how do you make it stand out from other romance novels that are already in the bookstores This is a question you must answer Once you have determined your genre and know exactly what you want to write about you should begin to think of marketing your book Make it something that prospective readers will choose when they see it in bookstores or online This will set it apart from other books of the same kind and lure readers to buy it You can make a career out of self publishing your books and marketing them to the right audience After you have decided on what you are going to write about and what will make your book stand out from the rest you can then begin to outline your book You should write down an outline of the book and the points you are trying to make Well written books convey a message Make sure your book conveys a good message to the readers that they can take away from the book While you may like the free form method of writing which is writing without doing any sort of outline you must still have an idea of the ending of the book in mind If you are writing a fiction book characters come alive as you write The ending you have in mind may change as you rewrite the book so it is important to be very flexible The way you write depends on the type of person you are If you wish to have everything ironed out for your book then you must write down an outline that will tell you where you are heading This is like having a roadmap for a car trip Get a copy of this well written book to learn all you need to know about self publishing and how you and use it to your advantage Self-Publishing for the Average Person Marijoyce Porcelli,2011-08-01 This is a clear and concise step by step guide that will allow even the novice to self publish a book for free using this manual along with the print on demand services provided by the company Create Space If you know how to use a simple computer word processing program and have access to the Internet then you can self publish your own book for free This is not however just a book that tells you to go to Create Space and follow directions there While I do take you step by guided step through each part of the self publishing process and offer cautions when I think they are needed there is much more information about how to self publish presented in this book Several early chapters cover how to prepare a manuscript for self publication I give you handy tricks and tips I have learned on how to spot and avoid some common mistakes that are often made in self publishing I explain the process I tell you different ways you can illustrate your book for free I explain whether you need to copyright your work or not and if so I provide information how to do that I tell you how to create the interior of your book how to choose the size of your book before you even start your manuscript how to create a nice looking cover for your book for free using your own images or personal photos if you wish and more much much more There is no need to give hundreds sometimes

thousands of dollars to a professional book manufacturer or vanity press to put your work into print You can do the same thing yourself and you can do it for free If you don't already have all the necessary programs needed for self publishing installed I provide links where you can download these for free and I give you step by step instructions on how to use each one I even tell you where you can get stock photos for illustrations for free as well as advise about several photo editing programs you can use also for free One such free download of a very good photo editing program is similar to the more expensive photo program Photoshop only without the higher price And there is even more How do I know so well what you need here Because I am not a professional book manufacturer nor am I in any way affiliated with Create Space I chose them because I like their finished products and they have an excellent support staff I was once just a beginner like you might be right now I was someone who working within a limited budget figured out the process of self publishing my own books for free Because I was once exactly where you may be right now I understand that you need concise and detailed but simplified instruction that you need a complete step by step guide that will literally lead you by the hand so to speak in helping you put your own book together for free And I know that you need to know all the ins and outs of the process not just the nuts and bolts of the self publishing process itself although that is thoroughly covered as well Once I understood all the ins and outs of this self publishing process once I ironed out all the kinks that the average person will usually face once I figured out where to download all the free programs needed and so on I have since published several of my own books and will continue to do so i have also helped others who never dreamed they could self publish a book put their own editions together So if you can use a computer word processing program there are loads of them available and most work in a similar fashion but I cover only the two most popular Microsoft Works and Microsoft Word in detail this manual and if you have access to the Internet you can follow this step by step guide and self publish your own book for free using just this manual and the print on demand company Create Space So pick up this book read each chapter carefully then follow the detailed step by step instructions to self publish your own book for free
