Handbook of Public Sociology Vincent Jeffries, 2009-07-16 Public sociology an approach to sociology that aims to

communicate with and actively engage wider audiences has been one of the most widely discussed topics in the discipline in recent years. The Handbook of Public Sociology presents a comprehensive look at every facet of public sociology in theory and practice. It pays particular attention to how public sociology can complement more traditional types of sociological practice to advance both the analytical power of the discipline and its ability to benefit society. The volume features contributions from a stellar list of authors including several past presidents of the American Sociological Association such as Michael Burawoy, a leading proponent of public sociology. The first two sections of the Handbook of Public Sociology look at public sociology in relation to the other three types of practice: professional policy and critical, with an emphasis on integrating the four types into a holistic model of theory and practice. Subsequent sections focus on issues like teaching public sociology at various levels, case studies in the application of public sociology, and the role of public sociology in special fields in the discipline. The concluding chapter by Michael Burawoy, a past president of the American Sociological Association and a leading proponent of public sociology, addresses current debates surrounding public sociology and presents a constructive vision for the future that embraces and improves upon all four types of sociology. The Handbook of Public Sociology, with its examination not only of public sociology but also of how it can enhance and complement other types of practice, transcends differences in the field and will appeal to a wide range of academics, students, and practitioners. **Die**

indigene Bewegung Ecuadors (CONAIE) Zeljko Crncic, 2012 *Action Learning for Social Action* Mike Pedler, 2020-12-17 This book is about action learning in the service of social action and social change. The contributors are all engaged in developing new approaches to the wicked problems found in the world today, including the climate emergency, the circular economy, food poverty, and insecurity, homelessness, disadvantage, active citizenship, social entrepreneurialism, and the learning of young women abducted by Boko Haram. They reflect a great diversity of settings in South Africa, Australia, Canada, Nigeria, Mozambique, Hungary, Poland, and the UK. At this time of global crisis, rapid technological and social developments sit side by side with apparently impossible challenges needing urgent action. In the Global South, conflicts, terrorism, and climatic changes have forced millions of people to abandon their homes and to migrate in search of food and safety. In the Global North, neo-liberal and market-based policies have pursued deregulation, privatisation, and the shrinking of the state, with consequent increases in homelessness, poverty, and ill health. Action learning was devised to help people work together in challenging situations to bring about changes from the bottom up. The people in these stories and cases are not passively awaiting brighter futures but are acting together to create a better world for themselves. They are taking back control in local community regeneration schemes, local energy and housing projects, setting up co-working spaces, and inventing new ways of doing business and learning new ways to inhabit the earth. They demonstrate a confidence in an action learning idea that is alive and evolving. The chapters in this book were first published in the journal *Action Learning Research and Practice*.

Politics and Government in Hong Kong Ming Sing,2009 This book examines the government of Hong Kong since its handover to mainland China in 1997 focusing in particular on the anti government mass protests and mobilisations in the years since 2003 It argues that Hong Kong has been poorly governed since transferring to Chinese rule and that public frustration with governmental performance including anti subversion laws and slow democratisation has resulted in the regular and massive protests which have been rare in Hong Kong s past political development The book then assesses different explanations for Hong Kong s government problems including lack of social cohesion incomplete economic restructuring structural budgetary deficit severe social inequality intensifying cronyism and deficiencies within the political system itself It goes on to discuss the implications of poor governance for legislative elections civil society and constitutional development and considers the prospects for the future It argues that although in the short term the Hong Kong government has managed to maintain its popular support ratings in the longer run it is unlikely to be able to maintain its legitimacy in dealing with the fundamental challenges of government unless the current system is replaced by popular election of the government with appropriate institutional capacity and political powers The Oxford Handbook of Political Participation Marco Giugni,Maria Grasso,2022 The Oxford Handbook of Political Participation provides readers with up to date knowledge on the wide ranging topics covered in this field and considers the key theoretical and methodological pluralism in the area as well the most recent developments One of the aims of this Handbook is to bring together two research traditions from political science and sociology bridging research in political sociology and social movement studies Accordingly the Handbook mainly brings together authors coming from both the politics and sociology research traditions as well as key authors working on political participation coming also from other fields such as psychology economics anthropology and geography The volume provides the first comprehensive up to date treatment of political participation in all of its varied expression it covers a wide range of topics relating to the study of political participation both from a theoretical and
