Mandatory Sustainability Requirements in EU Public Procurement Law Willem Janssen, Roberto Caranta, 2023-10-05. This book provides the first comprehensive appraisal of the paradigm shift towards mandatory sustainability requirements in EU public procurement law. Traditionally, EU public procurement law focused on how to buy, dictating procedural rules so that public buyers in the Member States did not discriminate against suppliers and service providers from other Member States. Mandatory green and social requirements mean that, with a view to achieving sustainable development goals and mitigating climate change, the EU will limit this discretionary power for public buyers, pushing them to acquire more sustainable goods and services. Based on legal analysis informed by economic perspectives, the book aims to contribute to an understanding and critical discussion of the EU legislator's move towards regulating what to buy. The book discusses the role of the Public Procurement Directives in relation to this paradigm shift, as well as various other sectoral legislative instruments that have been revamped or newly introduced in light of the European Green Deal. The paradigm shift is analysed from different perspectives, including subsidiarity, alternative regulation, economics, and public purchasing. The book includes novel sectoral studies on transport, food, clothing, and construction, discussing how change is taking place and what its major challenges are for the future. Chapters on Italy, the Netherlands, Spain, and more offer case studies of Member States that have already introduced mandatory requirements and highlight lessons learnt. This is an essential book for professionals working with public procurement law in academia and practice, and to those engaged in

achieving public policy objectives in light of climate change and social injustice **Catalog of Federal Domestic Assistance** ,2007 Identifies and describes specific government assistance opportunities such as loans grants counseling and procurement contracts available under many agencies and programs **Proceedings of the 2022 2nd International Conference on Economic Development and Business Culture (ICEDBC 2022)** Yushi Jiang,Yuriy Shvets,Hrushikesh Mallick,2023-05-11 This is an open access book With the support of universities and the research of AEIC Academic Exchange Center The 2nd International Conference on Economic Development and Business Culture ICEDBC 2022 will be held in Dali from June 24th to 26th Compared with previous conferences it will discuss more in depth economic independent innovation open cooperation and innovative business culture under the background of the new development stage new situation and new journey era There will be a broad exchange environment Well known experts scholars or entrepreneurs in the field will be invited to make keynote reports Contributing authors are also very welcome to actively participate in the conference and build an academic exchange ceremony *Martindale Hubbell Law Directory* Martindale-Hubbell,2003-12
