

- Have students to **task 1, textbook p. 37**.
- You can have students do the Mental Math 7 worksheet for additional practice.

Workbook Exercise 15, #1-2

Activity 2.4b

Add with renaming in the ones

- Add 2 numbers within 1000 with renaming in the ones.
 - Provide students with place-value charts and number discs.
 - Write the problem $36 + 8$ on the board and have students solve it.
 - Show students the steps for solving this problem. Show each step first with number discs, and then with numbers. Begin by placing 3 tens and 6 ones onto the place-value chart. Now place 8 more ones into the ones place.
 - Rewrite the problem in vertical format. Show each step first with number discs, and then with numbers.
 - There are too many ones in the ones place. Ask students how many ones we have (14). We don't have a single digit to show 14, so we need to rename ten ones as a ten and put that in the tens column. We now have 4 tens and 4 ones.
 - We show this step on the number by writing the tens above the 3 in the tens column and the ones below the line in the ones column. This is the same as renaming 14 ones as 1 ten and 4 ones.
 - Then we add the tens (1 ten + 3 tens) to find the total tens, which we write below the lines in the tens column.

$$\begin{array}{r} 1 \\ 36 \\ + 8 \\ \hline 44 \end{array}$$

- Write the problems $36 + 28$ on the board in a vertical format. Guide students in solving this problem using the addition algorithm (shown on **textbook p. 36**). Show each step with number discs on the place-value chart, and then show how that step is recorded in the numerical representation. This is the same as the previous problem, except that we just have two more tens.
- Repeat with $336 + 28$. We add the ones and tens in the same way, but now we also have hundreds.

$$\begin{array}{r} 1 \\ 36 \\ + 28 \\ \hline 64 \end{array}$$

$$\begin{array}{r} 1 \\ 336 \\ + 28 \\ \hline 364 \end{array}$$
