Institutionalized Learning in America mixes theory and practice, presenting proven methods that are based on research and that have been demonstrated to work. No one set of strategies or methods is offered, providing the reader with the opportunity to select from many different approaches. The book is divided into four parts and twenty chapters. Part I on teaching provides an overview of research on teaching and teacher effectiveness. Part II on learning discusses how information to be learned is organized and taught as well as how to evaluate what has been learned. Part III on instruction emphasizes planning and organizing content and experience in a meaningful way. Part IV deals with effective schools.
