Dinomania Ulrich Merkl,2015-11-25 Winsor McCay the creator of Little Nemo in Slumberland is internationally renowned as a pioneer in comics and animation But author Ulrich Merkl s dedicated sleuthing has unearthed a never published strip by

McCay that was lost following the artist's untimely death. Titled simply *Dino*, it opens a surprising new window into McCay's life and work and showcases his exquisitely beautiful and delicate delineations exactly reproduced from the original art. Merkl explores the influences McCay brought to the strip including McCay's own *Gertie the Dinosaur* animated shorts, the animation in 1933's *King Kong* and the growth of New York City from the Holland Tunnel to the Empire State Building and traces our love of dinosaurs and monster movies down through the decades. Breathtakingly designed, each page of this deluxe oversize volume is overflowing with amazing imagery with more than 650 photographs and illustrations, more than 250 in color, most of them seen here for the first time in a century. An essential volume for everyone interested in the development of the comic strip and our never-ending fascination with dinosaurs.

*The Construction of Logical Space* Agustín Rayo, 2013-06-27 Our conception of logical space is the set of distinctions we use to navigate the world. In *The Construction of Logical Space*, Agustín Rayo defends the idea that one's conception of logical space is shaped by one's acceptance or rejection of just is statements, statements like "to be composed of water just is to be composed of H<sub>2</sub>O" or "for the number of the dinosaurs to be zero just is for there to be no dinosaurs." The resulting picture is used to articulate a conception of metaphysical possibility that does not depend on a reduction of the modal to the non-modal and to develop a trivialist philosophy of mathematics according to which the truths of pure mathematics have trivial truth conditions.

*The Little Book of Prophecy and Truth* Dan Nordquist, 2008-01-02 From Creation to the Islamic Antichrist and how you can be sure you're one of God's chosen.

**And That'S the Truth!** Carl W. McClure, 2012-09-18 And That's the Truth: Meaningful fiction to stimulate your mind and nurture your soul is a treasury of short fiction stories. Most of the narrators in Part One are animals talking about themselves. You learn how dozens of animals live, eat, and survive through dialogue and description. Look too for inanimate objects to spring to life and talk about themselves: a houseplant, a stop sign, a dollar bill, and others. Part Two gives you traditional fictional stories with lively characters and believable or not-so-believable storylines. All of the stories leave you with a nugget of wisdom or a bit of a chuckle. Sprinkled throughout Part Two are a few short articles of general interest, non-fiction. Whether you read the stories in order or at random, you will come away enriched with inspirational and encouraging accounts that stimulate your mind and nurture your soul.
