How Pleasure Works Paul Bloom:

How Pleasure Works: The New Science of Why We Like What We Like Paul Bloom, 2011-06-20 Engaging evocative Bloom is a supple clear writer and his parade of counterintuitive claims about pleasure is beguiling NPR Why is an artistic masterpiece worth millions more than a convincing forgery Pleasure works in mysterious ways as Paul Bloom reveals in this investigation of what we desire and why Drawing on a wealth of surprising studies Bloom investigates pleasures noble and seamy lofty and mundane to reveal that our enjoyment of a given thing is determined not by what we can see and touch but by our beliefs about that thing s history origin and deeper nature How Pleasure Works Paul Bloom, 2011-06-02 Pleasure is one of the most fascinating aspects of being human But what is it Exploring child development philosophy neuroscience and behavioural economics Paul Bloom uncovers how universal habits explain what we like and why we like it The average Briton spends over a day a week watching television People slow their cars to look at gory accidents and go to sentimental movies that make them cry Some men pay good money to be spanked by prostitutes In this revealing and witty account Paul Bloom examines the science behind these curious desires attractions and tastes exploring one of the most fascinating and fundamental engines of human behaviour How Pleasure Works has one of the best discussions I ve read of why art is pleasurable why it matters to us and why it moves us so Daniel Levitin author of *This Is Your Brain on Music* Summary of Paul Bloom's How Pleasure Works Everest Media, 2022-06-09T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The pleasure we get from certain objects is related to our beliefs about their histories For example the tape measure that was owned by John F Kennedy is now worth 48 875 2 The author s friend owns a collection of baseballs that are special because of their history Not everyone is a collector but everyone I know owns at least one object that is special because of its history 3 The function of pleasure is to motivate certain behavior that is good for the genes Humans are animals and we share many pleasures with other species However art music stories sentimental objects and religion are not typically enjoyed by other animals 4 The theory that humans have evolved unique pleasures because of culture is not entirely wrong While other animals have instincts humans are smart We can create and learn biologically arbitrary ideas practices and tastes **How Pleasure Works** Paul Bloom, 2010-05-25 In this fascinating and witty account Yale psychologist Paul Bloom examines the science behind our curious desires attractions and tastes covering everything from the animal instincts of sex and food to the uniquely human taste for art music and stories Things Carolyn Korsmeyer, 2019 *Things In Touch with the Past* explores the value of artifacts that have survived from the past and that can be said to embody their histories Such genuine or real things afford a particular kind of aesthetic experience an encounter with the past despite the fact that genuineness is not a perceptually detectable property Although it often goes unnoticed the sense of touch underlies such encounters even though one is often not permitted literal touch Carolyn Korsmeyer begins her account with the claim that wonder or marvel at old things fits within an experiential account of the aesthetic She then

presents her main argument regarding the role of touch both when literal contact is made and when proximity suffices for touch is a fundamental sense that registers bodily position and location Correct understanding of the identity of objects is presumed when one values things just because of what they are and with discovery that a mistake has been made admiration is often withdrawn Far from undermining the importance of the genuine these errors of identification confirm it Korsmeyer elaborates this position with a comparison between valuing artifacts and valuing persons She also considers the ethical issues of genuineness for artifacts can be harmed in various ways ranging from vandalism to botched restoration She examines the differences between a real thing and a replica in detail making it clear that genuineness comes in degrees Her final chapter reviews the ontology that best suits an account of persistence over time of things that are valued for being the real thing

Flourishing Miroslav Volf, Tony Blair, 2016-01-12 More than almost anything else globalization and the great world religions are shaping our lives affecting everything from the public policies of political leaders and the economic decisions of industry bosses and employees to university curricula all the way to the inner longings of our hearts Integral to both globalization and religions are compelling overlapping and sometimes competing visions of what it means to live well In this perceptive deeply personal and beautifully written book a leading theologian sheds light on how religions and globalization have historically interacted and argues for what their relationship ought to be Recounting how these twinned forces have intersected in his own life he shows how world religions despite their malfunctions remain one of our most potent sources of moral motivation and contain within them profoundly evocative accounts of human flourishing Globalization should be judged by how well it serves us for living out our authentic humanity as envisioned within these traditions Through renewal and reform religions might in turn shape globalization so that can be about more than bread alone

Eugene O'Neill's Philosophy of Difficult Theatre Jeremy Killian, 2022-03-02 Through a close re examination of Eugene O'Neill's oeuvre from minor plays to his Pulitzer winning works this study proposes that O'Neill's vision of tragedy privileges a particular emotional response over a more rational one among his audience members In addition to offering a new paradigm through which to interpret O'Neill's work this book argues that O'Neill's theory of tragedy is a robust account of the value of difficult theatre as a whole with more explanatory scope and power than its cognitivist counterparts This paradigm reshapes our understanding of live theatrical tragedy's impact and significance for

our lives The book enters the discussion of tragic value by way of the plays of Eugene O'Neill and through this study Killian makes the case that O'Neill has refused to allow Plato to define the terms of tragedy's merit as the cognitivists have He argues that O'Neill's theory of tragedy is non-cognitive and locates the value of a play in its ability to trigger certain emotional responses from the audience This would be of great interest to students and scholars of performance studies literature and philosophy

Battles of the Sexes Joe Malone, Sarah Achelpohl Harris, 2018-07-03 A fresh look at relationships between twenty-first century females and males In the twenty-first century it is no longer just the battle of the sexes but individual battles of the sexes that pose challenges to how men and women relate to each other *Battles of the Sexes* helps men and women understand their own sexual nature as well that of the opposite sex and develop sexual empathy for each other Leading young adult health experts Joe Malone PhD and Sarah Harris MS RDN provide insight into the mismatch both sexes endure between our rapidly changing culture and our inherited nature and the resulting battles both genders fight Cutting-edge yet understandable science is used to illustrate things like the effect of women's menstrual cycles and the chemical and visual laws of attraction Malone and Harris lay out what motivates the genders inside relationships particularly men and their relationship with women and women and their relationship with food in a way that encourages sexual empathy *Battles of the Sexes* illuminates how couples can recognize chemical dangers to their bonds and gives singles valuable insights for dating empowering loving lasting committed romance between men and women that will benefit not only individuals but also our entire species

Literature and Medicine: Volume 1 Clark Lawlor, Andrew Mangham, 2021-06-24 Offering an authoritative and timely account of the relationship between literature and medicine in the eighteenth century and Romantic period a time when most diseases had no cure this

collection provides a valuable overview of how two dynamic fields influenced and shaped one another Covering a period in which both medicine and literature underwent frequent and sometimes radical change the volume examines the complex mutual construction of these two fields via various perspectives disability gender race rank sexuality the global and colonial politics ethics and the visual Diseases fashionable and otherwise such as Defoe's representation of the plague feature strongly as authors argue for the role literary genres play in affecting people's experience of physical and mental illness and health across the volume Along with its sister publication *Literature and Medicine in the Nineteenth Century* this volume offers a major critical overview of the study of literature and medicine *Literature and Medicine* Clark Lawlor, Andrew Mangham, 2021 Offering an authoritative account of the relationship between literature and medicine between approximately 1800 and 1900 this volume brings together leading scholars in the field to provide a valuable overview of how two dynamic fields influenced and shaped each during a period of revolutionary change During the nineteenth century medicine was being redefined as a subject in which experimental methodologies could transform the healing art and was simultaneously branching off into new specialisms and subdivisions Questions addressed in this volume include the influence of physics on poetry the role of medical professionalism in fiction the cultural and literary representation of sanitation and the interdisciplinary nature of controversy and negligence Along with its sister publication *Literature and Medicine in the Eighteenth Century* this volume offers a major critical overview of the study of literature and medicine Back cover volume 2

A Public Faith Miroslav Volf, 2011-08 An intellectual and applied Christian engagement with what it really means to flourish as human beings in relationship to God and one another *Braided Selves* Pamela Cooper-White, 2011-06-10 What if we are more multiple as persons than traditional psychology has taught us to believe And what if our multiplicity is a part of how we are made in the very image of a loving relational multiple God How have modern Western notions of Oneness caused harm to both individuals and society And how can an appreciation of our multiplicity help liberate the voices of those who live at the margins both of society and within our own complex selves *Braided Selves* explores these questions from the perspectives of postmodern pastoral psychology and Trinitarian theology with implications for the practice of spiritual care counseling and psychotherapy This volume gathers ten years of essays on this theme by preeminent pastoral theologian Pamela Cooper White whose writings bring into dialogue postmodern feminist and psychoanalytic theory and constructive theology **Why Jesus?** Ravi Zacharias, 2012-01-25 The author believes that over the past forty years movements like New Age spirituality and society's obsession with human potential have combined like a perfect storm to redefine for popular culture what has been for centuries the classic biblical definition of the person work and teaching of Jesus Christ In *Why Jesus* Ravi Zacharias looks at the impact of this storm by discussing the 60s 70s Age of Aquarius actor Shirley MacLaine's book and TV series *Out On a Limb* author James Redfield *The Celestine Prophecy* Rhonda Byrne *The Secret* Dan Brown *The Da Vinci Code* and other books by Eckart Tolle Wayne Dyer Deepak Chopra the Dalai Lama and Marianne Williamson Special

attention will be given to the influence of Oprah Winfrey's media platform in reshaping society by introducing and promoting certain books and authors. Major new age and human potential tenets will be discussed like the belief that we are all gods and have to discover our divinity. Jesus was only a good teacher. Christianity is but one among many ways to eternal life. Reincarnation is real. Jesus was married. Truth is relative. There is no sin and perfection is possible. The truth of and the arguments for the bodily resurrection of Jesus will be presented as the most important argument for the exclusive claims about Jesus and Christianity.

Piero's Light Larry Witham, 2021-11-15 In the tradition of *The Swerve* and Galileo's *Dialogue*, Piero's Light reveals how art, religion, and science came together at the dawn of the modern world in the paintings of one remarkable artist. An innovative painter in the early generation of Renaissance artists, Piero della Francesca was also an expert on religious topics and a mathematician who wanted to use perspective and geometry to make painting a true science. Although only sixteen of Piero's works survive, few art historians doubt his importance in the Renaissance. A 1992 conference of international experts meeting at the National Gallery of Art deemed Piero "One of the most highly regarded painters of the early Renaissance and one of the most respected artists of all time." In recent years, the quest for Piero has continued among intrepid scholars, and Piero's Light uncovers the life of this remarkable artistic revolutionary and enduring legacy of the Italian Renaissance.
